STILL HOPE FOR PEACE IN COAL DISPUTE

Judge Enright Scores Reckless Autoists

JUDGE ENRIGHT SAYS AUTOIST WHO PASSES MACHINE ON CURVE IS WORST ROAD MENACE

Autoist Charged With Reckless Driving is Fined \$25—Another Fined for Going Away Without Making Himself Known After Accident—Other District Court Cases

The worst menace on the road is the automobile which passes another machine on a bend in the road, and auto drivers must be made realize that they must stop this, said Judge Enright in district court today.

There is no sympathy for the man who passes another machine on a curve or on the brow of a hill, said the court. "This kind of a drive is one of the worst menaces on the road today. With his view obscured he takes a chance, not knowing what is

approaching. Statistics show that more accidents are caused because of this than by drunken drivers."

The court's comment was made in passing sentence upon Octave Parent, who was charged with driving so as to endanger public safety. A fine of \$25 was imposed on Parent. He appealed, but later withdrew his appeal and paid the fine.

Testimony against Parent was offered by Officer Lawrence H. Clark of the

SHOW OLD PHOTOS

Boston Merchants Falsely Label Channel Swim Pictures, Mr. Sullivan Says

A number of pictures purporting to depict scenes of Henry Sullivan's recent successful swim of the English channel have been placed in advertising posters in many Boston stores. One of the pictures shows Henry being taken from the water in an exhausted condition and placed in a boat.

This picture does not jibe with the newspaper story of Henry walking out of the channel at Colne, refusing the assistance of one of his boatmen, Thos. B. Sullivan. Henry's father, says the picture was one taken when Henry was removed from the water in the channel in 1920. He has taken the matter up with Lawyer Frederick S. Harvey to see if steps cannot be taken to stop the showing of these pictures as of the 1923 swim.

REAL ESTATE TRANSFERS REPORTED TODAY

Severin Beaudry has purchased from Joseph S. Surprenant the property located at 104-110 Tilden street, which consists of 10 tenements and two stores as well as about 5000 square feet of land. The sale price was not made public, but it was stated that the assessed valuation is \$10,000.

Miss McCauley has also purchased a four-room bungalow and 15,000 square feet of land in Tewksbury from Celia Morin. The sale price was not given. These three sales were effected through the office of E. Gaston Campbell.

Dr. Joseph T. L. Brennan has purchased from J. B. Turner, the property located at the corner of East Merrimack and High streets, which consists of 12 tenements and three cottages. The assessed valuation is \$15,000.

COUNSEL FOR BANKS MAY OFFER INSANITY PLEA

When Barney Banks of Lowell was called for a hearing in the district court in Lawrence today, on a charge of the murder of Police Officer Arthur J. Bower of Methuen, Attorney Daniel J. Donahue of Lowell, counsel for the defense, asked for a further continuance until next Friday, in order to give an "alienist" for the defense time to prepare his report of an examination of Banks. The case was continued.

Second Assistant District Attorney Frank Raymond of Essex county, then stated that the government would have an alienist examine Banks and that his report would also be ready by next Friday. In all likelihood Dr. John Blue of the Danvers State hospital, will be the man selected by the government to examine Banks as to his sanity.

Banks appeared to be in much better condition today than on his last appearance in court. His parents were also present during the proceedings.

In a discussion with newspapermen after the hearing Attorney Donahue intimated that if the case ever goes to trial, a plea of insanity will be offered as a defense. Banks is a victim of hallucinations, he said, and they have checked up many of his statements in proof of this belief.

After the proceedings in court a conference was held by Chief James W. Riley of the Methuen police, and State Officers Griffin and Murray. After the conference it was announced that a new clue had been discovered which might throw some further light on the mystery surrounding the actual murder or murders, or other

However, other than this, the officers would make no further statement, but admitted that developments along this new line might be expected tomorrow.

CHECK FOR \$100

The fire department has just received a check for \$100 from the Boston & Maine railroad for assistance rendered at the Nuttings pond fire in Billerica, on April 21 last.

Coal Commission in Formal Statement Says Stoppage of Anthracite Would Constitute Emergency

BROOKHART HITS AT MEREDITH

Ready to Go Under Oath to Show Schemes to Drive Former Back to Peasantry

Glad Meredith So Considerate in Asking Damages of 30 Cents in Libel Suit

"If He Beats Me, That Is All I Will Have After Paying Deficit on Farm"

JEWELL, Ia., August 24.—Declaring that he would be "only too glad" to go under oath to "tell the farmers of Iowa and the United States what I have learned about the financial schemes to drive them back to peasantry," Senator Smith W. Brookhart, addressing an American Legion picnic here today, renewed his attack on E. T. Meredith, former secretary of agriculture, with whom he has taken issue on the financial condition of the farmer. It was Mr.

URGES U. S. TO JOIN LEAGUE

Wickersham Says Great Political Party Invented Reasons to Keep U. S. Out

Declares Plan of Government in Ignoring League "Almost Childish"

CHAUTAUQUA, N. Y., Aug. 24.—George W. Wickersham, attorney general of the United States in the Taft administration, advocated America's entry into the League of Nations today before the conference on international relations from the Christian viewpoint being held under the auspices of the Federal Council of Churches.

Mr. Wickersham declared "a great political party" had "invented" reasons why the country should not enter the league and said the plan of the government in affecting to ignore the existence of the league was "almost childish." He criticized encouraging the militaristic ambitions of Brazil to build a war navy," asserting that such a course might lead the other nations of South America to appeal to the League of Nations for support.

KATE DOUGLAS WIGGIN. AUTHOR, DEAD

HARROW, England, Aug. 24.—(By the Associated Press)—Kate Douglas Wiggin, the American author, died last night.

The novelist was taken seriously ill on her voyage to England last June, and went to a nursing home in Liverpool for treatment. Her condition, however, was not regarded as critical and in a few days word came from the institution that she was able to spend much of her time out of doors.

The novelist later underwent an operation from the effects of which she did not recover.

The funeral arrangements have not been completed, pending the coming of the author's husband, George C. Riggs, who is understood to be in the way here from the United States.

NO FURTHER INTERVENTION

Public Interest Would Not Be Served Through Another Attempt to Intervene

Calls for Full Co-operation of Consumers With Soft Coal Operators

Pledges All Possible Aid Through Executive Action by Government

WASHINGTON, Aug. 24.—Stoppage of anthracite mining would constitute a public emergency, the coal commission said today in a formal statement requiring the full co-operation of consumers with soft coal operators and all agencies of distribution with all possible aid through executive action by federal and state government.

"If those who now control the mining and distribution of anthracite are to continue to think only of their own demands and not at all of the public's demands for coal," the statement said, "the coal commission feels that every measure should be taken to supply the domestic fuel needed in the homes of the great mass of consumers and especially of the industrial workers, throughout the east."

A careful review of the situation, Chairman John Hays Hammond said, led the commission to still cling to its belief that the stoppage of anthracite production would not be allowed to occur because of the vital interests of both miners and operators, which would be irretrievably injured. On the other hand, he said, the government did not feel that the public interest would be served through another attempt on its part to intervene in the deadlock.

Government Agencies Ready to Act

WASHINGTON, Aug. 24.—Preparations of government agencies to protect anthracite consumers from a fuel shortage next winter, were moving at

FIRE CHIEF SAUNDERS IN FAVOR OF "SILENT ALARM" PLAN APPROVED IN LYNN

With the proposed installation of a new fire alarm system in this city in the near future, the first round of every first alarm will be a silent one, if the proposition of Chief Edward F. Saunders, following a precedent established by the city fathers of Lynn yesterday, is carried out. At least, the chief expressed the opinion this morning that he favored such a movement for the purpose of eliminating the congestion at fires caused by automobiles, the operators of which chase to the scene of conflagrations and handicap, to a great extent, the work of the fire fighters.

The local chief's comments today were based on the action of Chief Edward F. Case of Lynn, who yesterday appeared before the city council of that city and requested that the system of sounding first alarms publicly be abolished. The councilors granted the petition. In Lowell, however, said Chief Saunders, the first alarm will not be entirely abolished. His plan is to make the first round of the alarm a "silent" one, meaning that engine house indicators will privately receive word of the location of the fire prior to the public sounding of

50 KILLED AND 100 INJURED WHEN TRAIN CRASHED INTO DAM

WARSAW, Aug. 24.—(Jewish Telegraph Agency) More than 50 persons were killed and approximately 100 injured when a train proceeding from Vilna to Warsaw, left the tracks near Lida and crashed into a dam early yesterday. The impact burst the dam, the ensuing rush of waters helping to swell the casualty list. The train was filled with passengers, mostly Jews, and among them were a large number of emigrants bound for America. The work of rescue, according to latest reports, was proceeding under great difficulty. A special first aid train dispatched from Lida was held up by damage to the tracks caused by the flood from the bursting dam.

\$100,000 WORTH OF DIAMONDS AND OTHER GEMS TAKEN FROM SAFES

LOS ANGELES, Aug. 24.—One hundred thousand dollars' worth of diamonds and other gems was taken from two safes belonging to manufacturing jewelry companies early today by thieves who held up and bound a night watchman and blew open the safes.

Bombers Off for Mitchel Field

BANGOR, Me., Aug. 24.—The two Martin bombing planes which were left here yesterday when Major Reynolds hopped off with his air squadron for Mitchel Field, took their departure today at 9:30 a. m., in charge of Captain Harvey and Captain Duncan. Their destination was Mitchel Field and the officers expected to make the run in five hours. The flying conditions were ideal.

Fog Prevented Damage by Frost

SPRINGFIELD, Aug. 24.—Only a blanket of fog prevented frost damage in the lowlands here today, when the mercury dropped to an official 38 degrees in some places. The official record at the United States army station was 13.3 three degrees lower than yesterday's mark. Again today it was colder here, near the Connecticut line than in Southern Vermont points.

Killed When Door of His Sedan Opened

HUNTINGTON, N. Y., Aug. 24.—Charles Romano, a merchant, was killed today when the door of his sedan, on the running board of which he was riding, swung suddenly and the handle pierced his left lung. He had stepped on onto the running board to wipe rain from the windshield while a companion took the wheel.

Coldest August Weather Since 1912

BOSTON, Aug. 24.—The coldest weather in any August since 1912 was recorded by the weather bureau here today. The mercury dropped to 51 between 5 and 6 o'clock. It was the coldest August 24 since 1874.

STYLE CLASS WAR—FLAPPERS PROTEST DRESS REGULATION

SOMERSET, Pa., Aug. 24.—This little city of Somerset has been somersaulted into a style class war. The first clash occurred when the Parent Teachers' association formally endorsed the "old fashioned" girl and took steps to petition the school board to adopt a uniform style of dress for all school girls. The rules would bar silk hose, short skirts, bobbed hair, and low neck, sleeveless dresses. The flapper contingent, hearing of the meeting, stormed it. Their verbal protest delivered in rhyme, was as short and snappy as the dress and manner of the flapperette who delivered it.

With that the flappers exited while the parent teachers' session was turned into an indignation meeting. Action on the dress question will be demanded of the school board, the parents and teachers decided.

At The Kasino Tonight

JOHNNY BALL AND EDDIE DONOHUE

Eddie Donohue and Johnny Ball, two of Lowell's best known and most popular singers, will entertain Kasino patrons with a new selection of melodies tonight.

A brand new program of the latest songs will be introduced by the pair in their Kasino appearances. Donohue and Ball have a way all their own of presenting popular songs in dance tunes. They will work in conjunction with Campbell's jazz orchestra, a collection of musicians which has been meeting with unusual success this season.

MAJOR FRANCIS TWOHEY PLEASED AT AIR MAIL TESTS

GUEST OF HONOR

Major Francis J. Twohey, head of the Organized Reserve in this district, was the guest of honor at a dinner tendered last night at Page's restaurant by the Non-Commissioned Officers Association of the Organized Reserve. Major Twohey has just returned from several weeks at Camp

MAJOR FRANCIS J. TWOHEY

Wright, Long Island, where he served as instructor at the citizens' military training camp.

Major Twohey told an interesting story of the work of the soldiers at Long Island, and paid a high compliment to Capt. Jackson Palmer, and Lieut. Charles Duffy, the two Lowell men who were at the camp as instructors. Capt. Palmer was instructor in the work of handling the 105-millimeter guns, while Lieut. Duffy was assigned to the command of a department of the coast defense.

Capt. Palmer was the only graduate of the camp to instruct the men in the use of the big guns and during the practice scored higher points of marksmanship than did the regular officers. Major Twohey then urged all to join to qualify for the rifle team here. Because of the large number of members in this city and the percentage who are classed as marksmen, he expects that within a short time the association will have a rifle team of such rank. The men in charge of the rifle team here are Sergeants Kimball, Flannery and Connors, and recognition for the rifle team will begin at once, Major Twohey said.

The dinner was presided over by Sergt. Ward, vice-president of the association, in the absence of the president. The house was filled with officers in charge of the arrangements were Sergeants Flannery, Ward and Mulvey.

K. OF C. DELEGATION

At the big joint meeting tonight of all local organizations interested in the coming reception to be tendered Lowell's famous swimmer, Henry E. Sullivan, the Lowell Knights of Columbus will be represented by the following delegation: Grand Knight John E. Hart, Roger J. Lutz, Charles J. Landers, Frank A. Groves, John M. Souza, Elvin Bernhardt, Raymond Fortinault, John J. Baxter, James J. Mulvey, Dr. Joseph P. Gurney. The meeting will be held in Liberty hall at 8 o'clock, with Sergt. Connorsman James J. Ryan presiding. The affair is being sponsored by the K. of C. and the K. of G. under the name of Sullivan reception.

Proves Aircraft Can Be Operated at Night With Certain Degree of Regularity

24,000 Miles Covered—Night
Air Way Lighted at Cost of Half Million

OMAHA, Neb., Aug. 24.—Commenting on the final results of the air mail experiments now being conducted with coast-to-coast relay flying, Second Assistant Postmaster General Henderson announced that with the termination of the test flights, the government will have accomplished what it set out to do—to prove that aircraft can be operated at night with a certain degree of regularity, with a very definite degree on the coast down and with a definite degree of safety.

CHICAGO, Aug. 24.—(By the Associated Press).—The last transcontinental air mail flight in the test period conducted by the postoffice department began this morning when planes left San Francisco and New York on the east bound and west bound coast-to-coast flights.

A regular transcontinental air mail service, operated both day and night, is assured, as a result of the tests.

With the termination of the flights begun today, a combined distance of approximately 24,000 miles will have been covered, 5000 of which will have been flown over a night airway, which was lighted for the purpose at a cost of a half-million dollars. More than 200 times that sum would be required to provide railroad mail transportation three times over the same route. It was pointed out.

CLEVELAND, Ohio, Aug. 24.—Pilot R. L. Wagner, east bound in the air mail plane test flight, landed here at 7:48 a. m., eastern standard time, from Chicago. Two minutes was taken to transfer the mail pilot W. L. Smith, leaving at 7:48 a. m. for New York, nearly three hours ahead of the schedule.

UNION DISCLAIMS SHUT-DOWN RUMOR

Striking mothers of the Saco-Lowell shops today disclaimed any hand in the circulation of rumors that the Saco-Lowell shops were to be closed. Agent Feaster of the corporation on Thursday thought it probable the rumor of closing, which he declared unfounded, had its inception among the strikers.

"We are not resorting to such tactics, we are conducting this strike in a quiet and orderly manner," said John O'Neil to The Sun this morning. Mr. O'Neil is an international vice-president of the union and is here from Cincinnati to direct the strike.

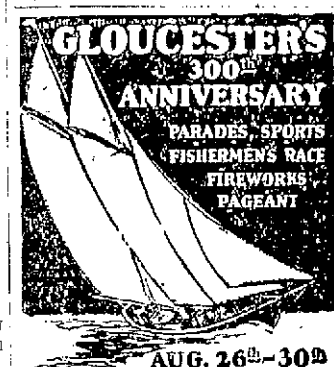

STARTS FLIGHT

Here is C. Eugene Johnson, pilot of the first relay of the transcontinental mail flight, photographed as he prepared to hop off.

Inter-City Playground Track Meet On the South Common Was Big Success

ARTHUR C. SULLIVAN,
Donor of Mayor Donovan Trophy

JOHN W. KERNAN
Supervisor of Playgrounds

JOSEPH A. MOLLOY,
Referee of the Meet

Lowell Athletes Win Over Haverhill Finest by Score of 82 1-2 to 45 1-2—Success of Meet Augurs Well For Future Inter-Sectional Games—List of Winners and Events—Handsome Silver Cup Known as the Mayor John J. Donovan Trophy Goes to Lowell Athletes

In the first inter-city track meet in the history of Lowell's playground activities, staged on the South common yesterday afternoon in the presence of several hundred men, women and children, the representatives of the local playgrounds defeated a contingent of Haverhill's finest athletes by the decisive and one-sided score of 82 1-2 to 45 1-2. The meet, conducted along regulation lines, was a success from every angle and the impressive victory of the Lowell boys and girls is a credit not only to their own ability in athletics, but to their male and female instructors, who worked untiringly in tutoring the youngsters and developing them for the struggle which they won with apparent ease.

The two to one proportion in the score is not in the least discrediting to the Haverhill boys and girls, who were forced to enter competition after a long and tedious ride over the road city and from Haverhill. F. James

Caswell, superintendent of Haverhill's playground work, was on hand, and expressed satisfaction with the conduct of the meet. Other Haverhill visitors included Miss Alta B. Cheney, head playground instructor, and William Shafford, in charge of the boys' work in the down-river hamlet. During the progress of affairs, the out-of-towners commented on the cooperation displayed between the local playground instructors and their young proteges and complimented the playground officials for the splendid exhibition of deportment and refinement which permeated the playfield during the afternoon. Although three policemen were on hand to keep the crowd back from the scene of the events, there was not a single instance of interference or rowdiness on the part of the contestants or the spectators. Everything went along smoothly and the first inter-city meet was brought to a close in a blaze of glory, particularly for Lowell. The success

Many Visitors Present

The big event was attended by many playground officials from many playgrounds from the city and from Haverhill. F. James

attained augurs well for future inter-sectional games.

Kept Things Moving

The officials at yesterday's meet kept things moving once the program got under way. The day was ideal for participation in strenuous sport and while no time was taken of the many events, it may be assumed that some fast performances were turned in by the juvenile stars, both boys and girls. Capt. Joseph Molloy acted as referee of the contests, while the other officials were the following: Field Judges, Frank Sawyer, physical instructor of the Y.M.C.A., Horatio Leggett and Paul Sullivan. The track judges were George F. Wells, secretary of the Lowell chamber of commerce, and Peter Regan. The scorers were Miss Mary Kelley for the girls and William Riley for the boys. Other energetic workers included Patrick Mulhane, who served as starter, and the following playground supervisors: Edwin Markham, Vincent McCarthy, Henry McGowan, Alphonse Achin, Walter Markham, Assistant Supervisor of Playgrounds Arthur C. Sullivan was in general charge and appeared to be a very busy man during the three continuous hours of fun and pleasure.

Mayor Donovan Trophy

Mr. Sullivan incidentally donated a beautiful silver loving cup to the Lowell athletes for their accomplishment in winning the meet. The emblem is to be known as the "Mayor John J. Donovan Trophy" and will come into permanent possession of the city winning the inter-sectional feature on three occasions. As the result of yesterday's victorious contest, the beautiful and expensive trophy will repose in this city until a new champion looms up on the horizon. With one leg decisively won by the local champions of track and field, youthful optimism, in consequence of the first big victory, points to permanent possession by the Lowell City boys and girls. Mr. Sullivan announced at the conclusion of yesterday's exercises that the prizes for the winners of the several events will probably be awarded at the fourth common playground pageant, to be held in the near future. These prizes consist of costly medals and other emblems befitting the occasion, and the majority of them will remain in Lowell as the result of the winning plays captured by local boys and girls in the Haverhill tilt.

The Sports Program

The first event on the day's program was the 50-yard dash for the boys of the senior division. Because of the unusually large number of contestants, it was necessary to conduct this event in heats, as only four running lanes had been chalked off. The first heat was captured by Piccolo of Haverhill, with McMorow of Lowell second. Heat No. 2 found Baraboe of Lowell a winner and Kelley, also of this city, a close second. Baraboe, by the way, was in a class by himself and started in several of the afternoon dashes with the final of the 50-yard dash was won by McMorow of Lowell, Baraboe being second and Kelley of Lowell third, giving the locals an auspicious advantage at the outset. Score, Lowell 2, Haverhill 0. The points were divided in a five, three, one ratio, for first, second and third, respectively.

Perhaps the biggest and best feature of the day was the running high jump for the senior class of boys. Six contestants stood at a height slightly exceeding three feet. The sextet found little difficulty in topping the bar on the first few tries, but with its removal to higher elevations, the entries were seeded out. Connors of Lowell, being the first man to succumb to the exertion when the pole registered 4 feet, 3 inches. McMorow felt the strain at five feet, but he took third place for his efforts. Carraher of Lowell and Craun of Lowell tied for first place with leaps of five feet, two inches. Craun showed remarkable courage in staying in the running with an opponent supposed to be much stronger. The local lad was the only contestant in the jump who did not wear running pants, sneakers or spikes, and his performance was roundly applauded by the spectators.

The other events and the winners were as follows: 60-yard dash for girls—first heat, won by Alice Finn, Lowell; second, May-De Baraboe, Lowell; second heat, won by Queenie Douglas, Lowell; second, Evelyn O'Connell, Haverhill. Final heat won by Alice Finn, Lowell; second, Machine Kenney, Lowell; third, Evelyn O'Connell, Haverhill. 60-yard dash for junior boys—won by Gardella, Haverhill; second, Patrick, Haverhill; second heat won by McCarthy, Haverhill; second, Lizzazera, Haverhill. The final was won

LABOR BANK OPENS IN PITTSBURGH TOMORROW

PITTSBURGH, Aug. 24.—The first labor banking institution to be established in western Pennsylvania, the Brotherhood Trust & Savings bank, will be opened for business tomorrow. The bank will have a capital of \$125,000 and a surplus of \$12,500, and it is planned to pay four per cent plus on savings accounts, excess profits to be added to interest as a dividend.

Banking by mail within a radius of 250 miles will be conducted on a large scale.

by Gallardo, Haverhill; second, Gardella, Haverhill; third, McCarthy, Haverhill. Score—Lowell 17, Haverhill 10.

Running high jump for junior boys—won by Nowak, Lowell; second, Dardarian, Haverhill; third, Boucher and Currier, Haverhill, tied.

Girls' broad jump—won by E. O'Connell, Haverhill; second, R. Boller, Lowell; third, F. Goodfield, Lowell.

40-yard run for senior boys—won by Baraboe, Lowell; second, Connors, Lowell; third, Kelley, Lowell.

Baseball throwing contest for senior boys—won by E. Kearns, Lowell; second, Rose O'Neil, Lowell; third, Florence Goodfield, Lowell.

Standing broad jump for senior boys—won by Baraboe, Lowell; second, Connors, Lowell; third, Marcoux, Haverhill.

High jump for girls—won by Grace Wilbur, Lowell; second, F. Goodfield, Lowell; third, Queenie Douglas, Lowell, and E. Hawes, Haverhill, tied.

Broad jump for junior boys—won by Dardarian, Haverhill; second, Dardarian, Haverhill; third, L. Nowak, Lowell.

30-yard dash for junior girls—won by Rita Regan, Lowell; second, Margaret Encousier, Haverhill; third, E. Sharkey, Lowell.

Senior relay race for boys—won by Lowell (C. Hyman, E. Quirk, A. Mulcahy, K. Donahue).

Junior relay race for boys—won by Haverhill (Gardella, Hills, Ballera and Dardarian).

Senior relay race for girls—won by Haverhill (E. Lerner, A. Kusper, M. Kencousky, M. Venezia).

Less than 15 per cent of the world's tonnage belongs to sailing ships.

MEDICINE OF MERIT

A proprietary medicine, like everything else that comes before the public, has to prove its merits. The law of the survival of the fittest applies in this field as in others. The reason for the tremendous success of Ledia E. Pinkham's Vegetable Compound is because it has been fulfilling a real human need for forty years, so that today thousands of American women owe their health and happiness to the marvelous power of this famous medicine, made from roots and berries—nature's remedy for women's ills—Ad.

Resinol relieves chafed skin-

MEN whose outdoor life causes skin irritation and tenderness, through excessive perspiration, rubbing of the clothing, etc., will find blessed comfort in the use of Resinol. This soothing ointment—so widely used in the treatment of eczema and kindred ills—cools the skin, stops the smarting and reduces the inflammation almost immediately. Try it and you will be delighted with its quick action.

You will also like Resinol Soap and Resinol Shaving Stick. They contain the same soothing Resinol ingredients which enable them to thoroughly cleanse the skin yet leave it free from sensitiveness and smarting. Don't wait—get the Resinol line from your druggist today. A week's trial will convince you.

PREMIER KATO OF JAPAN DEAD

One of the Most Able Statesmen Among the Naval Officers of the Empire

Also Noted for His Peculiar Calmness and Boldness as a Naval Strategist

TOKIO, Aug. 24. (By the Associated Press).—Baron Tomosaburo Kato, premier of Japan, died this afternoon, it was allowed to become known officially late today.

Premier Kato was born in Hiroshima prefecture in 1853. He entered the navy academy in 1873 and, after graduating, was attached to the warship Tsukuba for practical training. He was appointed sub-lieutenant in 1883. Pro-

ceeded to the rank of lieutenant, he proceeded to San Francisco with a training squadron. He entered the naval staff college upon his return from America from which institution he graduated in 1895.

In 1891 he was appointed a staff officer, being subsequently despatched to London as superintendent of naval construction. He returned to Japan in 1894 as an officer on the new warship Yoshino. Upon the outbreak of the Russo-Japanese war, Kato went on active service as a captain and six months later, was promoted to the rank of rear admiral.

In 1905, he participated in the famous "battle of the Japan sea" as chief of staff for the first squadron. Upon the restoration of peace, he was decorated.

In 1906 when the Salongi ministry was established Admiral Kato was appointed vice minister of the navy and later promoted to vice admiral when post he held until 1909, when he was appointed commander of the Kure naval port. While vice minister of the navy, he was appointed commander of the board of the Anglo-Japanese exhibition and also chief of the reception committee appointed in connection with the visit of the American squadron, and upon the outbreak of the World war, participated in the hostilities as commander of the battleship Settsu.

When the Okuma ministry was partially re-constructed in 1915, Admiral Kato was appointed minister of the navy in succession to Admiral Yashiro and was promoted to the rank of full admiral the same year. This portfolio he retained in the subsequently established Toranishi and Ibara ministries. He was raised to the peerage in 1920.

Kato was generally recognized as one of the most able statesmen among the naval officers of the empire and was also known for his peculiar calmness and boldness as a naval strategist. He was the holder of many foreign decorations.

It is understood that Foreign Minister Uchida will act as premier until after the funeral. The entire cabinet then will resign and a new one will be chosen under whoever is appointed premier. Among those mentioned prominently for the premiership are Count Gombel Yamamoto, an ex-premier, and naval admiral Governor Den of Fomosa, Governor Saito of Korea and Baron Tokutomi Makino, a member of the house of peers, who has held cabinet portfolios and diplomatic posts.

15,000 TONS OF WELSH COAL FOR BOSTON

LONDON, Aug. 24.—A cargo of 15,000 tons of Welsh anthracite coal left Swansea yesterday for Boston. It is stated that the price was 68 shillings approximately \$15.44 per ton, including the freight charge) as compared with 60 shillings which is said here to be the price of American anthracite on the spot.

Other American orders are expected in South Wales in preparation for what is termed in labor circles as "the forthcoming fight of the American owners against the miners' demand for better wages and recognition of the union."

Concurrently, the British department of overseas trade has issued a memorandum outlining the coal situation in the United States. The statement asserts that among other things the union leaders are apparently ready to offer a stiffer attitude than has generally been anticipated and that they control funds sufficient to finance a strike of considerable duration.

A despatch from Boston yesterday said that Mayor Curley had instructed the city purchasing agent to buy two cargoes of Welsh anthracite if obtainable at \$11.50 or less per gross ton.

INCREASE IN PAY FOR CAR SHOP WORKERS

Billerica car shop workers are enthused over rumors that an increase of three cents an hour, retroactive from Aug. 1, has been granted by the Boston & Maine railroad.

Superintendent Thomas Jennings says announcement to that effect is premature, no official word having thus far been received by him. The increase has been expected for the past few weeks and Mr. Jennings said he was only awaiting official confirmation before notice of the increase.

Pile Sufferers

Can You Answer These Questions?

Do you know why ointments do not give you quick and lasting relief?

Why cutting and operations fail?

Do you know the cause of piles is internal?

That there is a stagnation of blood in the lower bowel?

Do you know that there is a harmless internal tablet remedy discovered by Dr. Leonard and known as HEM-ROD, now sold by Green's drug stores and druggists generally, that is guaranteed?

HEM-ROD banishes piles by removing the internal cause, by freeing blood circulation in the lower bowel. This simple home treatment has an almost certain cure. It is a safe and healthy relief to thousands of pile sufferers, and saves the needless pain and expense of an operation. There is no reason why it should not do the same for you.—Adv.

Bobbed Hair

Is It Beneficial or Harmful?

Although bobbed hair may add to the attractiveness of some women it does not do so for all. As a result of certain sicknesses the hair is weak and thin and it is only in such cases that it should be cut. With many, the hair began to fall very soon after bobbing, while with others the general condition remained healthy until several months later. Many of the bobbed heads will be the thin haired and bald heads of the future. One of the first signs of weak hair is the type known as "light and fluffy" (it dries and brittle) breaks off easily in combing and becomes stringy.

Bobbed haired girls will do well to treat it in a common sense manner, or, like millions of young men, 25 and younger, they will become bald and thin haired.

Griff-Pear's Hair Grower is sold by Hatter Grower will prevent the embarrassment of poor hair.

Griff-Pear's Hair Grower is sold by McCord, Frye & Crawford, Howard, Green, Power & Shea, Thompson, Allen, Lowell and City Hall Pharmacies, also Currier's, Riley's and Perry's Barber Shops.

COUNCILOR McFADDEN WANTS TO KNOW WHO'S WHO IN THE STREET DEPARTMENT

Ward Nine Representative Seeks Information From Public Service Board Members—Engineer Stevens Submits Report on Survey of Pumping Station for Installation of Boilers

Who's who in the street department? That is a question Councilor Thomas McFadden is endeavoring to solve.

At a meeting of the public service board held late yesterday afternoon he suggested to the board that the city solicitor be asked for an opinion relative to the standing of Engineer Kearney and Supd. of Streets Doherty as far as their duties are concerned.

The councilor appeared at the meeting with a chip on his shoulder and at the outset told the members of the

of the opinion that petitions for street work should be referred to the superintendent of streets.

"Who has charge of the street department?" he asked.

"The public service board," replied Mr. Leary.

"Who are the board's subordinates?"

"The engineer and superintendent of streets."

"Do I understand that the superintendent of streets is subordinate to the engineer?"

"Yes, according to the action of the board."

"I question the legality of that," said the councilor, and at this point he produced a copy of the city charter and read the sections pertaining to the duties of the city engineer and the superintendent of streets, and later he asked that the engineer's duties were to lay out the work, while it was up to the superintendent to see that the work was done.

In closing he suggested that the board request an opinion from the city solicitor relative to the standing of the two men.

The meeting was called to order shortly after 4 o'clock by Engineer Kearney in the absence of Chairman Murphy. Mr. Leary was elected chairman provisionally on motion of Mr. Leary.

The following bids for a new head rail on the Moody street bridge were opened: Burton H. Wagon Co., \$5400; Thompsons Forge and Iron Works, \$5520.84; and Frank Donnelly, \$5840.

Report on Boilers

Engineer John A. Stevens, who was engaged by the board to make a survey of the pumping station in West Sixth street relative to the proposed installation of two new boilers, read his report to the board in the afternoon. He stated that the cost of the new boilers would be \$10,000, as he suggested that the new boilers be placed in another portion of the building so that they could be operated without artificial light, and this would necessitate the erection of an addition at a cost of \$10,000 or \$12,000. Mr. Leary stated that the amount mentioned by Engineer Stevens was far in excess of the amount the board contemplated spending. Mr. Stevens stated that the boilers could be installed without the services of an engineer. "I take great pride in my home town," he continued, "and rather than do a job which would not stand the acid test I would rather get out now and let you do as you see fit. The city of Lowell generally does things right and rather than submit to cheaper proposals, I'll prefer to be out from under when the smoke begins to fly." Mr. Leary informed Mr. Stevens that no action would be taken in the matter until the return of Chairman Murphy.

The board accepted an invitation from the Municipal Employees' union to attend a smoke talk on the evening of August 28. Action on the petition of the Burton H. Wagon Co. for an extension of time on its contract for the erection of the Alden street canal bridge, was delayed until the next meeting. A couple of complaints from employees of the street department were received and numerous petitions for pole locations and wire attachments were read and referred. The meeting adjourned at 6 o'clock.

COUNCILOR THOMAS McFADDEN

he said he was looking for a fight. He produced the copy of a petition for street improvements in his district, which he said was filed with the board some time ago, but he said as yet nothing has been done. He said he saw the city engineer but received no satisfaction. He spoke with Supd. Doherty and also with the mayor and although both officials gave orders over the telephone in his presence, still nothing has been done.

"I believe the council should know who is responsible for the work that comes under the public service board," continued the councilor. "and I am

HOW TO SLEEP ON A BARE FLOOR

It is more a matter of SLEEP, than of bed or board.

Some people can sleep sitting up, standing up, even while walking.

Many people can't sleep in the softest of downy beds; and all of us suffer occasionally from nerve-racking, wearing, tiring wakefulness at night.

There is always a reason for sleeplessness. Usually, it is a "sour" stomach, a liver that has "lain down" on the job, congested bowels, or biliousness.

Then, just before retiring, take Beecham's Pills. They soothe an uneasy stomach, encourage the organs of digestion and elimination to natural activity, and assure restful sleep no matter what!

At All Druggists—25c and 50c

Anniversary of Fascisti March on Rome

ROME, Aug. 24.—On the occasion of the first anniversary of the march of the Fascisti on Rome, the mint has been ordered to coin a small 100 lire gold piece commemorative of the event. On one side will be engraved a portrait of King Victor Emmanuel on the other the Fascists, or bundle of rods. Gold coins have not been issued since 1912.

Identify 3 Burned to Death at Hingham

HINGHAM, Aug. 24.—The three persons burned to death after their automobile had caught fire as a result of a collision with a stalled motor truck here, early today, were identified several hours later as Earl Finlay of Wollaston, Miss Lillian Schofield of South Boston, and a Thomas Gorham of South Boston. It is supposed that Finlay, the driver of the car failed to see the truck parked beside the road in time to turn out.

Bilboa, Spain, City Hall Attacked

BILBOA, Spain, Aug. 24.—The city hall was attacked yesterday by strikers who were driven off by the civil guards. One of the assailants was killed and six wounded. Other clashes occurred in various parts of the city.

Legion Hospital to Be Named for Harding

NEW YORK, Aug. 24.—The American Legion hospital for tubercular veterans at Big Tupper Lake, N. Y., is to be named the Warren Gamaliel Harding Memorial, it was announced today. A short time before his death, President Harding wrote to Dr. Samuel Lloyd, president of the institution, expressing his endorsement of the work being carried on there.

British Labor Organ to Cease Publication

LONDON, Aug. 24.—The Daily Herald, official organ of the labor party which has the support of the big British labor organizations, announces today that as a result of the report of a committee which has investigated its position, a recommendation that it cease publication on Sept. 30, will be submitted to the trades union congress next month. The newspaper attributes its present position to the fact that "millions of members of the labor party and members of the trades unions have miserably failed to respond to appeals" to support it.

AMUSEMENT NOTES

R. F. KEITH'S THEATRE

Tickets for the opening performance at the R. F. Keith theatre went on sale at the box office yesterday morning. The "regulars" came for the first performance, and there were many others who seemed glad of an opportunity to see the variety once more. Manager Pickett has had the theatre thoroughly cleaned and retouched for the season. New scenery has been painted. Everything has been put in the very best of shape, as is the custom of the Keith management. A bill of seven features has been prepared. It will be made public tomorrow. The acts are all new here.

Ice Makes Two Nations Hot In Scrap Over Greenland

GREENLAND'S CHIEF PRODUCE, AN ICEBERG—AND A YOUNG LADY "CITIZEN."

By N. E. A. Service
GENEVA, Aug. 24.—A huge cake of ice will probably come up before the League of Nations for discussion. It won't be brought into the council chamber as Exhibit A, because it's too large. Fact is, it's one-quarter the size of the United States! It's as big as Mexico. It's over one thousand miles long and 700 miles broad. Being so big, it has caused a collision between Denmark and Norway. Its name is Greenland.

There is not much danger of the two countries going to war over Greenland, but for some time now they and their press and their parliaments have been making faces at each other. Greenland was discovered as long ago as the 10th century by Eric the Red, a Norseman who planted a colony there. Then Greenland was cut by local Greenland councils consisting

of the natives. The Danes claimed the whole of the immense territory. The Norwegians disputed this. The Norwegians sharply asserted their position last December by passing a bill annexing Greenland. Norway has never disputed Danish rights in the west and southern coasts, but claims northeast Greenland where its subjects conduct a certain amount of trade. The whole country only has about 30,000 Eskimo inhabitants and there are about 10 trading settlements, consisting of a few houses each from which there is exported whale and seal oil, furs, caribou, fish and a little copper.

But Greenland will always be interesting to the rest of the world because it produced the product in pocket, the kind that caused the Titanic disaster.

This Little World

CHICAGO

By GEORGE BRITT
N.E.A. Service Writer
CHICAGO, Aug. 24.—It will be correct to tip the taxi driver when you visit Chicago, but it's unsafe to try to impress him with highbrow stuff.

Six drivers for one single cab company, it just comes to light, are doctors of philosophy. About fifty others are bachelors of something or other of colleges and universities.

The city pays more to ride in a taxicab than to be taken by the hand of scholarship and led about the bumpy road to learning.

The childish game of "fasting."

by means of the old favorite "transfer pictures," has again society's exclusive North Shore. Children of the wealthy thrill at the same savage decorative system of the children of the alleys enjoy. Patterns of keyholes and doors and red curtains are transferred, from the old and watermarked paper, but to a cheap arm or neck. Afternoon tea is but a step removed, perhaps, from the next step from the candy and fruit habit which is developing in Loop office buildings. The promoters are a diligent band of peddlers. Each afternoon the peddler appears, and is not with reference to building up a business, but with a salesmanship that is a shower of nickels. The day's office reports nearly 300 "thousand and pack peddlers," mostly selling clothes in Loop buildings.

For family reasons even the Smiths would be hard put to beat the record of the bricklayers, who last assembled 200 of their known 350 members for a convention here. Cousins came from a dozen states, and Canada. The game was adopted only about a century ago by an ancestor in Lithuania, where a local edict required modernization of customs.

Whisperings about like "old masters" in Chicago art galleries and maidens serve to bring forward the story of a peddler artist who lived here in the traditional penny. This woman received word one day that \$200 had been sent her by cable from Switzerland. She hurried through the studios in her building in search of some other artist who had a bank account and might identify her. There was none. The peddler at length introduced her at his bank.

SAYS WALTER WARD WAS AN EXPERT SHOT

NEW YORK, Aug. 24.—Walter S. Ward, slayer of Clarence M. Peters, who is waiting trial for murder in the Westchester county jail, was characterized by a former employe testifying before the grand jury which investigated the killing, as "a cold-blooded and close-mouthed man with a wonderfully alert mind, and an expert pistol shot."

This was repeated yesterday when more of the grand jury record was made public by Ward's attorneys. The testimony quoted was given by Palmer Tully, chief assistant under Ward in the purchasing department of the Ward Baking Co., who said he was discharged in February without apparent cause.

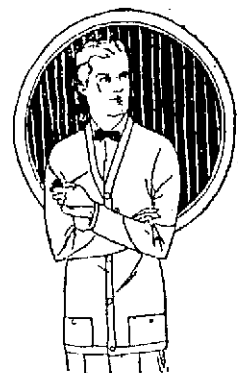

Tully described frequent visits to Ward's office of two men, one called "Boss" with whom he said Ward appeared to be on friendly terms. According to a statement by Ward concerning the shooting, two men known to him as "Jack" and "Boss" were involved with Peters in a blackmail plot against him.

The witness further told the grand jury that Ward was the best shot among the higher officials of the New

Rochelle police force, of which he was a commissioner.

Another witness whose testimony was made public was Earl N. Hardy of Haverhill, Mass., an uncle of the slain man. He said Peters never appeared to have much money, even after the time the blackmail was paid by Ward to have been levied.

"I don't think he had a mind capable of doing the things reported," he said. "For instance, the blackmail plot; he didn't have head enough to do that."

Germany Stands By Cuno Offer

BERLIN, Aug. 24.—(By the Associated Press) The present German government stands by the offer made by the recent Cuno government for the meeting of Germany's reparation obligations, Chancellor Stresemann told the German industrial commerce club in addressing it today. "For the liberation of German soil, for the maintenance of our sovereignty and for the consolidation of our situation," the chancellor declared, "it would not be so great a sacrifice to offer part of the German economic system as a productive pledge for carrying out Germany's reparation obligations."

LOWELL BOY IN 56-MILE HIKE

William McLean of this city was one of three boys who successfully completed a 56-mile hike from Camp Columbus to Washington, D. C., recently. Eleven boys with two counselors from the camp started on the hike but eight were eliminated because they accepted "help" along the route. The three who completed the trip were footsore and weary but a night's sleep

Bills—I wrote an article on cow's milk for a magazine. Nibs—Did they print it? Bills—Not all; they condensed it in a soft bed put them back into shape again. The trip was started at 2 o'clock, one week ago Thursday afternoon. At night the boys slept in a farmhouse and started out early the next morning. Heavy rain made the going muddy and all but four dropped out. Later in the day one more dropped out and left only three to complete the trip. They stuck at it and arrived in Washington late Saturday night, after covering 56 miles of hard going. The Lowell boy was the oldest in the group, being 15 years of age.

MISS LI HERE TO STUDY

SAN FRANCISCO, August 24.—Miss Grace Li, 20, daughter of Li Yuan-Hung, the resigned president of China, arrived here yesterday on the way to Wellesley college, where she will complete her education.

HOW TO KEEP FIT AT 72

Sprightly Old Man Reveals the Secret

"I am 72 years old, and much more vigorous and active than most men of my age. I know that my excellent condition is due to the fact that I take two or three doses of Wincarnis every day, because I never felt as well before I began taking it. I used to tire very quickly and suffer from weakness and had to bundle myself up whenever it was damp or drafty. But since I began taking Wincarnis I have had the energy and endurance of a middle-aged man, sleep soundly and withstand the severest of weather. I have noticed that Wincarnis keeps my appetite keen and that it strengthens my nerves and heart. If my fingers tremble and my heart flutters or I feel symptoms of depression or weakness, a dose of Wincarnis gives me relief within a few minutes."

(Mr. Eugene E. Collins, 175 Arnold St., New Bedford, Mass.)

COKE OPERATORS TO AID

CONNELLSVILLE, Pa., Aug. 24.—(By the Associated Press) Operators in the Connelville coke region today joined with bituminous coal operators of the country in preparing for an emergency demand for bituminous coke for domestic purposes in the event of a stoppage of anthracite production on September 1.

An output of 100,000 tons of coke weekly could be made available to ordinary consumers of anthracite coal, operators declared.

The Connelville region last winter was called upon to meet a similar emergency while anthracite operators were replenishing their depleted stocks after the settlement of the 1922 coal strike.

Two Held for Murder of John B. Girouard

MARLBOROUGH, Aug. 24.—Hugo Baldi of Somerville, and Bernardo Martino of Newton, charged with the murder of John B. Girouard, president of the People's Ice Co., the night of Aug. 13, were arraigned before Judge Edgar Weeks in the Marlboro district court today. The case was continued for a hearing Aug. 31, by agreement of counsel for the defense and assistant district attorney Warren L. Bishop. Girouard was shot to death when he interrupted an attack by supposed "hi-jackers" upon three men among them Baldi, who, according to information given the police were delivering bootleg whiskey at the rear of an icehouse of Girouard's company.

The Health Doctor says:
The greatest movement in America today is the crusade against preventable disease.

Theatre seats collect dangerous dirt

Why Crowds are Dangerous

ON the street—in school—in public places—your children come face-to-face with disease. The grime they collect on face and hands is mute evidence of countless dangerous contacts.

That grime is not "clean dirt"—but a product of city congestion—containing millions of invisible enemies to health.

What Mothers Must Do

You cannot keep children from this ever-present disease-dirt. But you mothers, the "Health Doctors," can and should do everything possible to prevent its deadly effects. All the health authorities in America ask your co-operation.

Make sure that your children are really clean when they wash themselves. Ordinary cleanliness is not enough. They need the rich purifying lather of Lifebuoy with its unique

health ingredient to go down deep into the dirt-clogged pores and combat the dangers ever-present in dirt. The pungent, healthful odor of Lifebuoy proves the presence of this extra element.

Because of its rich, red palm-fruit oil and oil of coconut, Lifebuoy is most grateful to youthful, sensitive skins. And many blemishes yield to Lifebuoy's sanative, stimulating action. Men delight in Lifebuoy lather.

Why Lifebuoy Leads

But the real reason why Lifebuoy is now probably the widest selling toilet soap in the world is that millions of mothers have proved it to be the health soap. Rely on Lifebuoy. Put a cake of Lifebuoy at every place in the house where there is running water. Lifebuoy protects health. Lever Bros Co., Cambridge, Mass.

More than Soap—Lifebuoy—a Health Habit

It Will Pay You to Get THE SUN Classified Ad Habit

COOLIDGE AGAIN CALLS OFF CABINET MEETING

WASHINGTON, August 24.—President Coolidge cancelled today's cabinet meeting—the third he has dismissed with in succession.

The president has had only one meeting with his complete official family and is said to believe that in the early days of his administration he can accomplish more through individual conferences with the various department heads than through a cabinet session. The absence of several members of the cabinet from the capital also is said to be a factor in his decision.

MISCELLANEOUS SHOWER

Miss Laura Frechette, who on Sept. 1 will become the bride of Mr. Joseph Eschall, the well known local wrestler, was tendered a miscellaneous shower at the home of her mother, Mrs. William Frechette, 759 Merrimack street, last evening. The affair was attended by about 30 young women and the evening's program included a mock marriage and entertainment numbers. Those who took part in the mock marriage were Misses Therese Chaput, Yvonne Crozier and Justine Bernard. Miss Frechette was showered with numerous gifts and among them was a handsome silver chest. A buffet lunch was served. Misses Berthe and Therese Chaput were in charge of arrangements.

STREET PAVING CONTRACT

Mayor Donovan this morning received notice from the purchasing agent to the effect that the city contract for drawing up the contract for the supply of 20,000 square yards, more or less, of bituminous concrete for the street department, which has been awarded to the Simpson Bros. Co. The price per ton as stipulated in the contract is \$2.50 and it is expected that contract will be sent to the mayor's office for approval within a couple of days.

Fire Chief Saunders Favors "Silent Alarm"

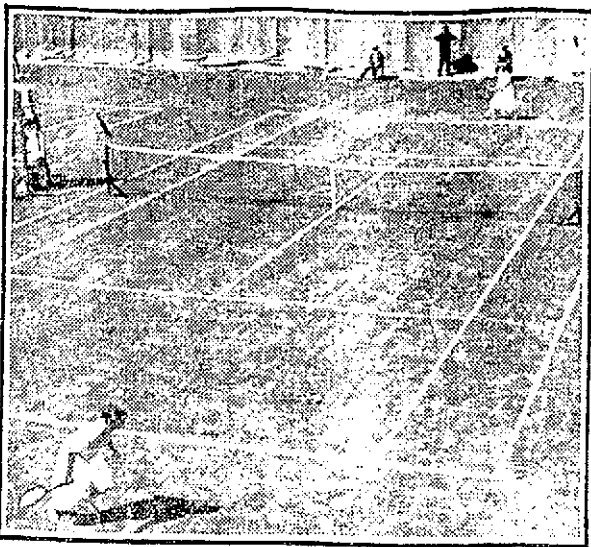

the signal. This will give the various places of apparatus an opportunity to be well on their way before the general public is aware of the location. The bells will then announce the box location. In Lynn the bells will be sounded for extra alarm blazes only.

Eliminates Traffic Congestion

Chief Saunders believes that the elimination of the first round of an alarm will remove one of the greatest obstacles his men have to contend with—traffic tie-ups and congestion—caused by motorists hurrying to fires. "It was only yesterday," he said, "that my own machine narrowly escaped an accident with serious possibilities because of this automobile congestion. In some cities there is a law which compels automobiles to remain at a distance of over 500 feet away from the scene of a fire, and a heavy penalty is attached to violators of the ordinance. In Lowell, there have been instances where the firemen have been unable to lay the hose lines because of the collection of automobiles in the immediate proximity of the blaze. I will do all in my power to remedy the situation when the new system is instituted in this city."

Plan Found Practical

Hearty police department approval will undoubtedly be given the plan of Chief Saunders. In New Bedford four rounds are rung in when a box is sounded. The first two rounds register in the engine houses and police headquarters only. The remaining two rounds are sounded by bells and sirens. As a result apparatus is generally at the scene of a fire before the general public is aware that one is going on. Chief Edward F. Doherty of the New Bedford department says the scheme is working out nicely. It has been in effect two years.

HOW HELEN WILLS WON

This picture tells the complete story of how Helen Wills, 17, of California, defeated Mrs. Molla Bjurstedt Mallory, seven times national women's tennis champion. That is Molla in the foreground, in mad pursuit of a ball that hit near the back line. Tennis sharps say that Helen won by keeping Molla on that back line, never allowing her to come to the net.

NEW WORLD'S RECORDS

Nurmi, Famous Finnish Runner, Sets New Marks for Mile and 1500 Meters

STOCKHOLM, Aug. 24.—At the Stockholm stadium last night Paavo Nurmi, a famous Finnish runner, established what are claimed to be world records for the one mile and 1500 meters runs. The one mile was made in 4 minutes 10.2 seconds and the 1500 meters in 17 minutes 42 seconds.

The world record for one mile was made by N. S. Patten, an American runner, in July, 1916, at the Harvard stadium. His time was minutes 12.2 seconds, while the 1500-meter record of 3 minutes 47 seconds was made by J. Zander in Sweden, in 1917.

DEMP SEES GIBBONS SPARRING PARTNER

SARATOGA SPRINGS, N. Y., Aug. 24.—(By the Associated Press.) "Recalling a stack of sparring partners capable of developing his speed as the chief concern of Jack Dempsey, the world's heavyweight champion, who is training here for his championship match with Luis Angel Firpo in New York, September 14.

Dempsey said today that Jack Kearns, his manager, is attempting to bring him into contact with Jack Burke and George Geddes, the two heavyweights who have been forced to admit defeat as a result of being outboxed by Dempsey's champion.

Jack Burke, Canadian heavyweight, who helped condition Dempsey for the Carpenter fight, also probably will be added to the sparring staff.

Many Tongues in Firpo's Camp

ATLANTIC CITY, N. J., Aug. 24.—Many tongues are spoken in the training camp of Luis Angel Firpo, who is preparing for the world's heavyweight title fight.

And Natalio Angel Pera, another Argentine, who is becoming a member of the sparring corps, speaks Spanish and Italian. Horatio Lavette, the director-general of the outfit, converses in either Spanish or French. Carlos Vera, the Cuban man, translates what is being said in Italian. French, German or English. Charles Schenck, the manager, speaks English and French. Another punch coach, mutters an expressive Gaelic when Firpo hits him.

And then there is Albertino, the Uruguayan chef. While Albertino's linguistic accomplishments have gone no farther than Spanish and a smattering of English, he can sing.

When the entire outfit gets together in the Firpo cottage and starts talking, accompanied by Albertino's "scat" tenor as he scrapes pans in the kitchen, it reminds one of a radio set gone wrong.

Ski To Sail for U. S.

PARIS, Aug. 24. Battling Ski left Paris last night for Cherbourg, with the intention of sailing for New York Saturday on the Berengaria, says the Echo des Sports.

M. Delmont, Ski's manager, who with two publishers accompanied the boxer, is quoted as saying that Ski does Sports as saying that the party has no engagements but that he intends to challenge the winner of the Dempsey-Firpo bout.

SEMI-FINAL ROUND IN TENNIS TOURNAY

BROOKLINE, Aug. 24.—Two of the most colorful tennis teams that have ever appeared in a national tournament will meet in the semi-final round of play for the "Palm Beach" doubles championship this afternoon.

William T. Tilden, 2nd, of Philadelphia, has as his partner Brian L. F. Norton, South African, whose attack on the court, combined with his insistence on trying for a "baseline" shot, have won him the title of the "Great Game" in the past.

This All-American team yesterday defeated the American Davis Cup team, John H. Hawkes, and John R. Hawkes, in four sets.

Play in the semi-final round will be continued with Tilden and Norton facing the French pair, Marcel Amato, Spain, and Wallace F. Johnston, Philadelphia, have not less interest in the present tournament. The Irish-Spanish pair, who have been in the cat-like bout for the past few days, are expected to play a very close match.

The winners of the semi-final match will meet in the final round, which will be played at the Chestnut Hill courts of the Longwood Cricket Club. The semi-final matches in the "Palm Beach" doubles tournament also are scheduled for today.

STRIKERS CHARGE UNFAIR METHODS

The strikers of the B. & M. car shops are considerably excited over a report from Mechanicville, New York, to the effect that General Manager Pollock and Assistant General Manager Coleman had solicited the influence of the clergy in that locality to aid in breaking the strike. The local organization has issued an answer to the statement alleged to have been made by the B. & M. officials mentioned. The whole matter will be discussed at a meeting of the strikers' organization at the Crescent rink this evening. It seems that the strikers maintain their organization intact. They deny that there is any weakening at this end and they are opposed to a break at any point. The say that if the railroad officials want the strike settled they should deal with the executive board and not with clergymen of any denomination who have no connection whatever with the controversy between the company and the strikers. The representatives of the union state that the executive board has always been willing to meet with the B. & M. officials and can be reached in their office daily at 35-40 Broadway street, Boston. They urge a conference for settlement of the strike in order that they may be able to do their part toward keeping New England from freezing this winter.

PRE-WEDDING SURPRISE

Last evening Miss Beatrice Lajeunesse was agreeably surprised at her home, 9 Albion street, by a large group of friends in honor of her coming marriage, and was presented a beautiful dinner set. The house was prettily decorated for the occasion. There was a music marriage in which Miss Lajeunesse and her fiancé, Mr. Charles D. Dionne, were the principal figures. The evening was spent by all present. Miss Lajeunesse is soon to become the bride of Mr. Charles D. Dionne.

ECZEMA ITCHED AND BURNED

On Children's Limbs and Bodies. Cuticura Heals.

"Both my children when babies had eczema on upper parts of limbs and body quite badly. It broke out in the form of a rash. They were restless and fussy, caused by the itching and burning, and kept me awake lots of nights.

"A friend recommended Cuticura Soap and Ointment so I purchased some and in about two weeks all signs of eczema were gone, after using one cake of Soap and one box of Ointment." (Signed) Mrs. Harold Putnam, Post Mills, Vt., Feb. 28, 1923.

Daily use of Cuticura Soap, Ointment and Talcum helps to prevent skin troubles.

Sample Free Mail Address: "Cuticura Laboratories, Dept. 10, Malden, Mass. Write for Sample, Ointment and Soap. No charge. Enclose 3¢ for postage. Cuticura Soap is everywhere without cost."

Thousands Have High Blood Pressure And Don't Know It

Symptoms are Dizziness, Spells, Shortness of Breath and Sleeplessness

A very successful remedy for high blood pressure is known to pharmacists as NORMA, and during the past year the demand for it has increased tremendously.

A Buffalo physician declared how he came to a close study of this extraordinary condition and the result is a prescription now so far the name of NORMA that is a blood pressure cure only.

When high blood pressure is lowered it is generally followed by a period of restlessness and nervousness caused by it, such as nervousness, pains in the head, restlessness, and nervousness and dizziness will soon disappear.

NORMA reduces high blood pressure and when that is done a condition is overcome, freedom from the ailments mentioned above quickly follows.

A. W. Jones & Co. Importers NORMA, 200 reliable druggists everywhere.

WHITE HORSE PUP

Peter Pan, a wire-hair terrier, succeeds to the proud position until now held by Lottie Roy. Peter Pan was given to President Coolidge by Dr. Almonzo H. Howard, of Boston.

BEACON LIGHT CLASS IN REGULAR SESSION

The Beacon Light class of the Lawrence Street B. M. Sunday school met Thursday in the parlors of the church for their regular monthly meeting.

Misses Doris Marshall, Ellen Hall, Lillian Lord and Elizabeth Walker were voted as members of the class. Plans were made for their part in the Lincoln lawn party to be held at Hunting park Sept. 8.

A "sunshine committee" was formed with Lena Spencer as chairman and Doris Marshall as assistant. Other plans were discussed and other plans made for the coming month.

The Beacon Light class will be the choir for this coming Sunday night. Miss Margaret Ellis, president of the class, presided.

After the business was over, Alice Downey, teacher of the class, told of her experience at Northfield, where she attended the Christian Endeavor conference last week.

PALMER TAX RATE CUT \$2.40 PER \$1000

PALMER, August 24.—Despite an increase of \$2,000 in appropriations, the 1923 tax rate for this town will be but \$22.50, or \$2.40 a thousand less than last year's, according to the assessors.

This decrease is one of the greatest noted for 1923 in any western Massachusetts town.

SULLIVAN'S FAMILY REACHES ENGLAND

Mrs. Henry L. Sullivan and Miss Marion Sullivan, wife and daughter of Lowell's famous swimmer, arrived in Southampton, England, today, on the Leuchlight. They will join Mr. Sullivan at Dover.

While nothing definite has been learned of Henry's plans for the summer, his father is of the opinion that he will give several swimming exhibitions abroad before returning home.

MRS. MALLORY DEFEATS MRS. A. E. BEAMISH

BROOKLINE, August 24.—Mrs. Molla Bjurstedt Mallory of New York, defeated Mrs. A. E. Beamish of England, 6-1, 6-0, in today's semi-final of the women's invitation nine-rills tournament on the Chestnut Hill courts of the Longwood Cricket Club.

The first set was bitterly contested. Mrs. Beamish won the first three games, but lost the next four in a row to Mrs. Mallory. Service proved to be the last three games of the set.

The second set Mrs. Beamish won by six points. Mrs. Mallory was at her best and kept her opponent running along the base lines after her hard volleys.

No Further Intervention

needed speed, as the threatened issue of hard coal mines Sept. 1 drew at their day's supply, with no more coal other side in the desire toward a renewal of negotiations.

There still was a lingering hope in official quarters, however, that such a move would come. For that reason the coal commission, as explained by Chairman Hammond, was holding its "emergency" report on the situation until the last of August in order that the coal commission might be able to make the possibility of new overtures by either side. The last word on the government's position was given by Mr. Hammond after a conference late yesterday with President Coolidge when he said the coal commission had no present intention of further intervention in the dispute between the operators and their employees.

Let Miners and Operators Walk Floor

"We are going to let the miners and operators walk the floor by themselves for a while," he added.

Development of the government's program for supplying fuel to anthracite consumers in event of a tieup of the mines meanwhile went ahead today, while Federal Fuel Distributors' Warlike completed arrangements for the meeting with representatives of the governors of 11 anthracite-consuming states in New York, next Tuesday. The geological survey was drawing up final data on the amount of fuel that would be available as a substitute while the bureau of mines, anthracite while the bureau of mines, had ready instructions for the public in the use of bituminous coal as a substitute.

Prepared For Disorders

The department of justice through its agents is known to be keeping a close watch on the situation in the anthracite fields in order to be prepared for any disorders in connection with the threatened walkout. There was no indication of any change in the previously expressed view of the administration that there was no legal authority by which the walkout might be prevented, but local officers of the government were understood to be prepared for any contingencies.

Apparently word had been received in official quarters today of substantial reports of a possible sympathetic strike by organized miners in the bituminous fields. Most officials were inclined to view such a possibility as remote, although it has not been lost sight of in the government's preparations to protect the public.

Plenty of Soft Coal

(CHICAGO, Aug. 24.—By the Associated Press.)

(ated Press) Apprehension that a sympathetic strike in the soft coal fields in Illinois would follow an anthracite strike, today was largely allayed following the announcement of Frank Farrington, president of the Illinois Mine Workers that there was no thought of a suspension in the bituminous fields. Coal operators who met with mine union officials here yesterday said there was a plentiful supply of bituminous coal above ground to supply any emergency demand in the middle west.

To Protect Mines

ATLANTIC CITY, N. J., Aug. 24.—Necessity for completing some arrangements that will prevent anthracite mines from permanent injury through flooding and cave-ins after Sept. 1, in the event of a strike, was said to be a chief factor in holding representatives of anthracite mine operators and officials of the miners' union in Atlantic City today.

Negotiations of terms on which the union would allow pumpmen, engineers and maintenance men to continue in service while the mass of the workers went out and been ordered upon, but both groups were known to have the matter in mind.

On other than this point, there was held to be a prospect of any renewal of the negotiations.

HEMISTAT

HEMISTAT, N. J., Aug. 24.—An early start for a flight to the continent was broken today when Pilot Wiley L. Smith of the air mail service landed here at 11:41 o'clock, eastern standard from San Francisco in 24 hours and 14 minutes.

No Sympathetic Strike

ATLANTIC CITY, N. J., Aug. 24.—Speculation as to possibility of a bituminous strike in sympathy with the anthracite suspension was given no countenance today by Frank Farrington, president of the United Mine Workers. He said that every principle of the union called for maintenance by its members of a fraternal obligation and that contrast in the unorganized bituminous fields require men to stay in employment and not go on strike. Further, it was pointed out the soft coal fields in West Virginia are non-union.

Gompers "No Prophet"

MILWAUKEE, Wis., Aug. 24.—A sympathetic strike on the part of coal miners to aid an anthracite walkout should such be called, would make the most powerful strike in the coal industry that the world has ever seen, Samuel Gompers, president of the American Federation of Labor, said in an address here before the International Photo-Engravers' union last night.

"I have no information, however, as to the likelihood of such a strike," Mr. Gompers said. "As to which side would win if it took place, well I am no prophet."

Substitutes for Anthracite

WASHINGTON, Aug. 24.—The seal of official approval was placed upon the use of by-product coke and bituminous coal as substitutes for anthracite in the publication today of a report given the results of comparative tests made by the bureau of mines.

Using types of boilers common to the small apartment house and individual dwelling, the bureau found that the efficiency of coke and of some grades of bituminous was as high as that of the anthracite.

"In fact," the report said, "two boilers gave somewhat higher efficiencies with coke than with anthracite. The efficiencies obtained with Pittsburgh and Illinois coal (bituminous) were about twenty per cent. lower than that obtained with by-product coke."

PLENTY OF SOFT COAL AVAILABLE FOR REHABILITATION OF TWO MAJOR N. E. ROADS

Bituminous Mines of Pittsburgh Can Fill All Demands of New England

Ready to Supply the Entire Six States on a Day's Notice

Price at the Tiptoe for Best Grades of Gas Coal \$3.25 to \$3.50 a Ton

PITTSBURGH, Aug. 23.—(By Associated Press.) The bituminous mines of the Pittsburgh district can fill all the demands of New England for coal on a day's notice, should the anthracite situation become so acute as to send that section into the open market for fuel. The price at the tiptoe for the best grades of gas coal today was \$3.25 to \$3.50 a ton.

This statement was made by leaders in the industry who declared that while all the winter supply for the northwest was not yet on its way to the district, none of the mines in the district were working full time and there was ample place for additional business.

There would be no delay in shipment, it was added, as the railroads had enough motive power and cars to move all the tonnage offered. Neither would it be necessary to work out a "freight gateway" or arrange other details of transportation since some companies already had important contracts in New England cities and methods of procedure were well understood by railroad operating and freight officials.

It was agreed, however, that Boston and other ocean points, might find it to their advantage to get such bituminous coal as they might need from the West Virginia fields by way of Newport News, Va., but for Portland, Springfield and scores of other inland cities there need be no fear of shortage.

An order received here today by any of the larger companies said W. P. Field, president of the Pittsburgh Coal Co. and former president of the National Coal association would be on his way to New England tomorrow.

BOSTON, Aug. 23.—The governors of the New England states in a conference at the state house today discussed the coal situation and the question of consolidation of New England railroads. All expressed their intention of attending in person or sending representatives to the coal conference in New York next Tuesday, called by F. R. Wadleigh, federal fuel distributor. It was announced that the governors felt that action regarding coal must be taken by the states individually and that no New England program was advisable. They expressed their confidence in President Coolidge who they said understood the needs of New England people.

With regard to the railroad problem, the governors issued a statement in which they said that action on their part at this time on the recent report of the joint New England railroad committee would be premature. They will confer on the subject again after the interstate commerce hearing in Boston on Sept. 24.

"We believe," their statement says, "there is urgent necessity for the rehabilitation of the two major New England railroads. We are gratified that the proposals for the rehabilitation of these two great railroad properties as suggested in the report of the joint New England railroad committee are meeting with such careful consideration and general discussion through New England."

The plan of the New England railroad committee was the first and it still remains the only plan that has been put forward for the prompt rehabilitation and restoration of our two largest New England systems to full vigor and ability to serve satisfactorily our New England people and industries.

Gov. Cox of Massachusetts, Baxter of Maine, Brown of New Hampshire, Flynn of Rhode Island, Templeton of Connecticut and Proctor of Vermont signed the statement.

CLEAN OUT DEADWOOD ON CITY'S PAYROLL

NEW BEDFORD, Aug. 23.—Following charges of graft and inefficiency in the street department, Mayor Walter H. H. Remington today began with the discharge of 15 men what he predicted would be a "complete house cleaning" of dead wood and political favorites in the service.

One of this number was implicated in alleged irregularities brought out in an investigation of the department. He was alleged to have "doctored" time slips and ordered unauthorized work for the councilman who instigated the probe.

SHE'S DANGEROUS

Harriet Smith of Milwaukee, woman's champion rifle shot of Wisconsin, will take the mark every day of the leading feminine contestants in the national and international rifle matches at Camp Perry, O., in September.

TRANSLATION OF NEW TESTAMENT

CHICAGO, Aug. 23.—(By A. P.) An American translation of the New Testament from the original Greek, and done in a simple, modern but vigorous style of English intended to be understandable to the average American reader, has just been completed by Dr. Edgar J. Goodspeed, chairman of the new 10-man department of the University of Chicago. It became known today. Dr. Goodspeed devoted three and one-half years to the task.

TRAP SHOOTING CHAMPIONSHIP

CHICAGO, Aug. 23.—(By A. P.) The Association of the Amateur Trap Shooters of North America at the annual grand American tournament of the Amateur Trap Shooting association here, by breaking 123 of 200 targets, the also held the amateur double championship which he won Tuesday by a score of 151 out of 200.

700 GALS. OF ALCOHOL SEIZED

BOSTON, Aug. 23.—Nearly 700 gallons of alcohol thought to have been brought in by bootleggers from a ship of Belgian registry on Boston light, was seized by the East Boston police early today in a shipyard near the harbor. Two men escaped and a patrolman's fusillade of shots was fired.

ELECTRICIAN ELECTROCUTED

NEW BEDFORD, Aug. 23.—Fred L. Jason, chief electrician of the Marine West Point & Marine Barracks here, was electrocuted today while working on the power in the boiler room. Five hundred and thirty volts passed through his anterior chest and posterior lumbar regions, and he died instantly.

Not a Blemish

Jack Daw's Adventures. Chapter 10

By the time Jack started down the rigging he felt a lot safer than he had when he started up, and he reached the ship deck in short order. "You'll make a good seaman," said the captain. "And now let's see how well you can scrub deck." And with that, he handed Jack a pail and brush.

The little adventurer had scrubbed the front porch of his home many times so the deck scrubbing job was not hard for him to get used to. As he pushed the great brush back and forth the captain started away. "When you've finished the front end of the deck you can rest," he shouted back.

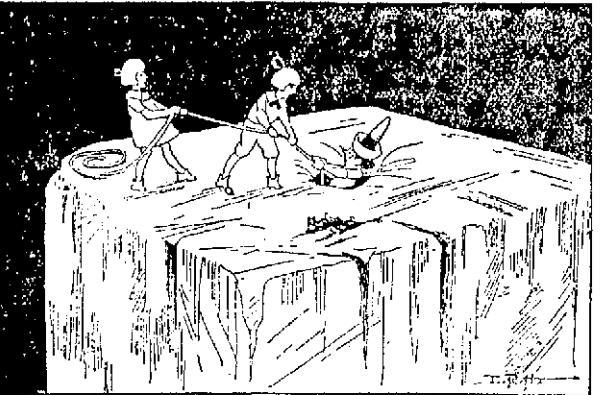

Jack worked hard for a long time. Then, when he was just ready to take a rest, a great wave of water came splashing over the side of the boat. It drenched Jack. The adventurer knew that it was a calm day and he wondered what caused that wave. Then he spied another ship. (Continued.)

ADVENTURES OF THE TWINS

Olive Roberts Barton

PETERKIN AND THE NORTH POLE

"I'll hunt the South Pole next time."

"Anybody else lost?" asked Nick. King Snookums was just about to say no, that his subjects were all accounted for, when he rushed Mrs. Peterkin. Peterkin was lost.

"Peterkin's gone!" she cried. "He got so warm, he said he was going to find the North Pole and off he started at twelve o'clock this morning. Now it's two and he isn't home yet and I've had his dinner waiting since 12 o'clock. I had such a nice dinner, too! Apple seed pudding with dandelion juice and an egg omelette."

"Well, find him," said Nancy. "Don't you worry any more. But as for me, I'm away in daylight he couldn't have been riding a lightning bug."

"No, I forgot to tell you," said Mrs. Peterkin. Peterkin was lost. "He was riding a fly."

"Then I believe I know exactly where to find him," said Nancy firmly. "Well, look in all the kitchens." "But kitchens are hot!" exclaimed Mrs. Peterkin. "And Peterkin was hunting for the North Pole. He wanted some place that was cool."

"Gold Rush" Film Carries Flavor of California

MAURICE FLYNN

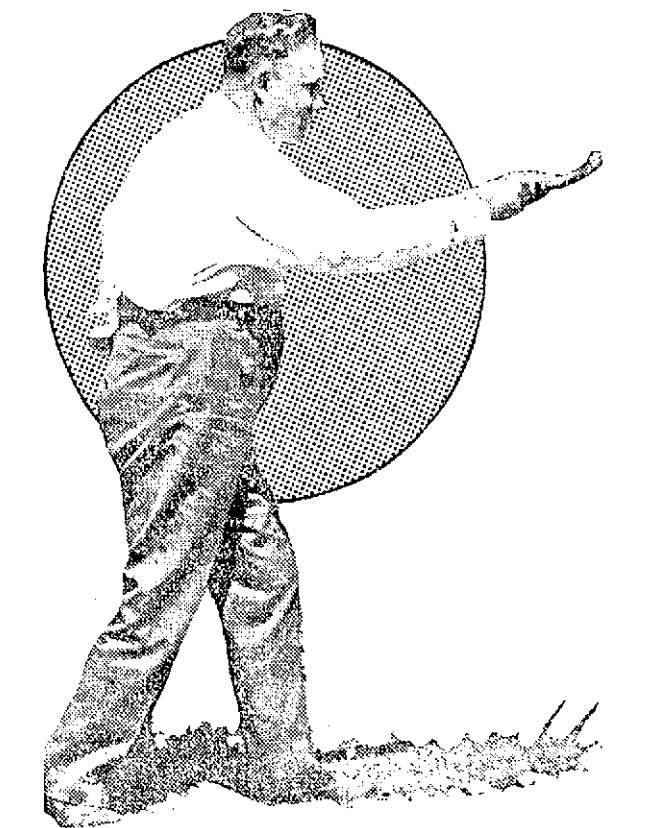

JACQUELINE LOGAN

By JACK JENNIFER
HOLLYWOOD, Aug. 21—Bert Hart had a way of giving his melodrama in the pencil wood so that it came out with the quality. Filmwrights haven't acquired that trick as yet, their product is rarer. But, taking this into consideration, there is in the Lasky production of "Salome Jane" the splendor of the manner of Hart's last, diverting screen sketch of a hectic day in the old California mother lode.

I must warn you, if you're going to make any word for the picture, that I am frankly prejudiced in its favor because it was made in a land which is my chief stamping ground. The charm of that land grows the film. Its red earth roads, sugar pine, blue canyon cliffs, placid washes, tumble-down saloons, weather-beaten, mountain homes, California country in the foothills of the Sierra stretched deep with the honey bloom of the Arroyos.

"Salome Jane" adapted from Bert Hart's tale of villainous times by Waldemar Young and directed by George Melford, puts out heavy melodramatic color of that kind. Members of the cast, stirred by the spell and spell of a vanished age, went at their performance with zest. You will notice it in the action of Louise Dresser, the mad mad mountain woman, and her renegade husband, played by Raymond Newell, the response of Jacqueline Logan and Maurice Flynn to the luscious elements of "Salome Jane" in the old-fashioned line of the gambler's role of William Lavinia, and the horse play of Tom Sawyer's "Yuba" and "Chase."

AND THE GOVERNOR THROWS 'EM

The west has gone "razed" over horsehoes. Even stand spreads of the state set a real kind out of tossing them. Heron Charles C. Moore, Idaho's former governor, practicing for a tournament to be held at Nampa, Ida., September 18 and 19, to decide the championship of the Gun State and Oregon. Governor Pierce of the Nevada State has been invited to meet Governor Moore. Bah, bah, bah, for the "guys."

Certain diseases are being diagnosed in their early stage by photography. The camera shows a rash before the eye can detect it.

PROUD STEED

General praiseworthy lot for the cameramen. President Coolidge has just selected him from among a dozen horses in the White House stables as his personal mount.

STYLE CLASS WAR—FLAPPERS PROTEST DRESS REGULATION

SOMERSET, Pa., Aug. 24.—This little city of Somerset has been somersaulted into a style class war. The first clash occurred when the Parent Teachers' association formally endorsed the "old fashioned" girl and took steps to petition the school board to adopt a uniform style of dress for all school girls. The rules would bar silk hose, short skirts, bobbed hair, and low neck, sleeveless dresses. The flapper contingent, hearing of the meeting, stormed it. Their verbal protest delivered in rhyme, was as short and snappy as the dress and manner of the flapperette who delivered it.

With that the flappers exited while the parent teachers' session was turned into an indignation meeting. Action on the dress question will be demanded of the school board, the parents and teachers divided.

At The Kasino Tonight

JOHNNY BALL AND EDDIE DONAHUE

Eddie Donahue and Johnny Ball, two of Lowell's best known and most popular singers, will entertain Kasino patrons with a new selection of melodies tonight.

A brand new program of the latest songs will be introduced by the pair in their Kasino appearance. Donahue and Ball have a way all their own of presenting popular songs in dance tunes. They will work in conjunction with Campbell's jazz orchestra, a collection of musicians which has been meeting with unusual success this season.

MAJOR FRANCIS TWOHEY GUEST OF HONOR

Major Francis J. Twohey, head of the Organized Reserve in this district, was the guest of honor at a dinner tendered last night at Pate's restaurant by the Non-Commissioned Officers Association of the Organized Reserve. Major Twohey has just returned from several weeks at Camp

MAJOR FRANCIS J. TWOHEY

Wright, Long Island, where he served as instructor at the citizens' military training camp.

Major Twohey held an interesting story of the work of the students of Long Island, and paid a high compliment to Capt. Jackson, Palmer and Lieut. Charles Duffy, the two Lowell men who were at the camp as instructors. Capt. Palmer was instructor in the work of handling the machine gun, while Lieut. Duffy was assigned to the government's department of the camp at Long Island.

Capt. Palmer was the only reserve officer to instruct the men in the use of the gas gun and during latest practice scored higher points of marksmanship than did the regular officers. Major Twohey then urged all to join the organization for the purpose of preparing for the future.

Because of the large number of members in this city and the percentage who are classed as marksmen, he expects that within a short time the organization will have a rifle team of high rank. The men in charge of the rifle team are: Sergeants, Richard Flannery and Connors, and registration for the rifle team will begin at once, Major Twohey said.

The dinner was presided over by Lieut. Ward, vice-president of the association, in the absence of the president. The non-commissioned officers in charge of the arrangements were: Sergeants, Flannery, Ward and McElroy.

R. OF C. DELEGATION
At the big joint meeting tonight of all local organizations interested in the coming convention to be tendered Lowell's famous summer, Henry F. Sullivan, the local delegate of Columbia, will be represented by the following delegation: Grand Knight John E. Hart, Roger J. Lange, Charles J. Langley, Frank A. Groves, John M. Souza, John J. Baxton, James J. Molloy, Dr. James P. Gurney. The meeting will be held in Liberty hall at 8 o'clock, with Lieut. Connors, James J. Baxton, in charge. The affair is being sponsored by the C.Y.M.C., under whose colors Sullivan completed.

PLEASED AT AIR MAIL TESTS

Proves Aircraft Can Be Operated at Night With Certain Degree of Regularity

24,000 Miles Covered—Night Air Way Lighted at Cost of Half Million

OMAHA, Neb., Aug. 24.—Commenting on the final results of the air mail experiments now being conducted with coast-to-coast relay flying, Second Assistant Postmaster General Henderson announced that with the termination of the test flights, the government will have accomplished what it set out to do—to prove that aircraft can be operated at night with a certain degree of regularity, with a very definite degree on the coast down and with a definite degree of safety.

CHICAGO, Aug. 24.—City the aviation press.—The last transcontinental air mail flight in the test period conducted by the postoffice department began this morning when planes left San Francisco and New York on the east bound and west bound coast-to-coast flights.

A regular transcontinental air mail service, operated both day and night, is assured as a result of the tests, Postmaster General New States.

With the termination of the flight tests today, a combined distance of approximately 24,000 miles will have been covered, 950 of which will have been flown over a night airway, which was lighted for the purpose of a test of a half-million dollars. More than 200 times that sum would be required to provide railroad mail transportation for the same route, it was pointed out.

CLEVELAND, Ohio, Aug. 24.—Pilot R. L. Wagner, east bound in the air mail plane test flight, landed here at 7:46 a. m., eastern standard time, from Chicago. Two minutes was taken to transfer the mail pilot W. L. Smith, leaving at 7:48 a. m. for New York, nearly three hours ahead of the scheduled time.

UNION DISCLAIMS SHUT-DOWN RUMOR

Striking members of the Sage-Lowell shops today disclaimed any hand in the circulation of rumors that the Sage-Lowell shops were to be closed. Arthur Foster of the corporation on Thursday thought it probable the rumor of closing, which he declared unfounded, had its inception among the strikers. "We are not resorting to such tactics," he said, "in conducting this strike in a quiet and orderly manner," said John O'Neil to The Sun this morning. Mr. O'Neil is an international vice-president of the union and is here from Cincinnati to direct the strike.

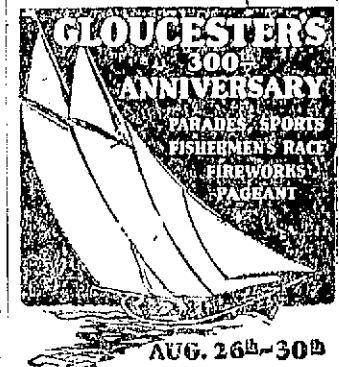

STARTS FLIGHT

Here is C. Eugene Johnson, director of the first relay of the transcontinental mail flight, photographed as he prepared to hop off.

Forty Years With the Water Department

Continued
tools for the masons who were building the Boston postoffice. His home was then at Cape Ann, Gloucester. In the fall of the same year, or a day before the cornerstone was laid for the immaculate Conception church, he came to Lowell and has made his home here ever since. Forty years ago yesterday, Mr. Gardner secured employment in the water works department as a blacksmith and worked his way to the position of assistant superintendent of the department, which appointment he received in 1906. In 1919, when Robert Thomas resigned as superintendent, Mr. Gardner was elected to the position of superintendent.

EMPTY

SETTLE STATUS OF FIUME

Premier Mussolini Calls on
Joint Commission to Act
Before Sept. 1

Impatient Over the Delay
in Settling the Status of
Fiume

ROME, Aug. 24.—(By the Associated Press) Impatient over the delay in settling the status of Fiume, Premier Mussolini has asked the joint commission dealing with the question to reach a decision before September 1.

The newspapers, this morning, reported that an ultimatum had been sent by the Italian government to Jugo-Slavia asking a definite decision concerning Fiume. It being alleged the Belgrade government had been constantly delaying final action. A semi-official communiqué issued this noon, however, stated that the word "ultimatum" used by the press was unwarranted. As to the character of the communication sent the statement added: "It was only an invitation to the mixed Jugo-Slav commission dealing with the Fiume question to complete its work within the present month."

The newspapers say Mussolini proposed that Fiume be governed by a mixed Jugo-Slav commission and that this commission request the Italian government with the political administration and management of Fiume.

CHICAGO LAWYERS ARE VISITORS HERE

Frank M. Padden and George E. Asselin, first and second assistant corporation counsel respectively for the city of Chicago, paid an informal visit to City Solicitor J. J. Reynolds at his office at city hall this morning. The two attorneys are visiting a cross-country trip and while enroute through Lowell stopped at city hall to pay their respects to the city solicitor. They were later introduced to Mayor Hovanec.

George E. Asselin is a former Lowell boy and studied law at the office of Lawrence D. Gifford, who has been away from this city for several years and since that time has been located in Chicago. In conversation with the city solicitor the two visitors stated that no less than 25 lawyers are connected with the city solicitor's office in Chicago, which is carried there, the corporation counsel office. The two men were accompanied to city hall by Lawyer J. H. Gifford.

LOWELL GIRL IS STILL MISSING

Mystery still enshrouds the whereabouts of Mary S. De Silva, 14-year-old daughter of Mr. and Mrs. Bartholomew De Silva of 4 Lincoln street, this city, who disappeared from home about a month ago, after a visit to a aunt at Secaucus, N. J. The girl was last seen in the company of her father at the time of her departure. The young girl had about \$5 in her possession and not being acquainted with out-of-town surroundings it is believed that she may not have gone very far. The local police were notified at the time of her departure, but their search has proven futile.

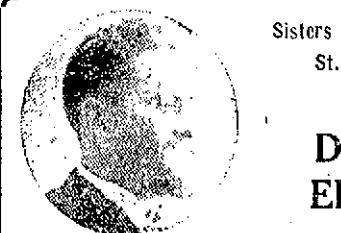

MASS NOTICE
An anniversary high mass of remembrance will be said at the Sacred Heart church, Monday morning (August 27) at 8 o'clock for the repose of the soul of the late Elizabeth McManis, who died August 27, 1922.

DEATHS

LAMOUNTAIN—Peter Lamountain, a former resident of this city, died Aug. 21, at the Soldiers home in Chelsea. He is survived by one daughter, Mrs. Frederick A. Brown of Aponeau, R. I.; one son, Frank Lamountain of Lowell, and one grandson, Frederick Brown of Aponeau, R. I.

KANE—Marjorie Kane of Whitman, died yesterday at his home. Mr. Kane, a brother of John Kane of Aylor street, was for some time a visitor in Lowell in connection with his racket business. Formerly active in republican politics in Plymouth county and Whitman where he was selectman for years, Mr. Kane has recently lived very quietly because of failing health. This spring he went to Florida for a long stay but with little benefit. An apoplectic stroke on Monday night was the immediate cause of death. Mr. Kane leaves his wife, Mrs. Rosa Barnham Kane, two brothers, John of this city and Thomas of Whitman and several nieces and nephews.

BAKER—William H. Baker, a resident of this city for almost 40 years, died last night at his home, 55 Congress street, aged 72 years, 8 months and 3 days. Up to about two years ago, when he retired, Mr. Baker had been an employee of the N. Y. N. H. & H. railroad for 31 years. He was well known among railroad men and also counted a wide circle of friends. During his long connection as a railroad employee, he leaves his wife, Elizabeth Baker and one daughter, Miss Sadie A. Baker of this city. Mr. Baker was a member of the Trauman Veterans' union and of the Knights of Malta and was an attendant of St. Anne's Episcopal church.

FUNERALS

MCCOY—Funeral services for David McCoy were held at his home, 22 Anderson street, yesterday afternoon. Rev. Frederick S. Beattie, assistant rector of St. Anne's Episcopal church, officiated. Interment took place at St. Mary's cemetery. The deceased was represented by George E. Mackley, P. G.; Edward Black, P. G.; William Black, P. G.; David Thomas, P. G.; Archibald Ross, P. G.; Albert Arthur, P. G.; and Harry Seals, who also acted as bearers. Burial was in the family lot in Westlawn cemetery, where the committal service was read by Rev. Mr. Beattie and the interment lodge delegation read the burial service of the order. The funeral was under the direction of Undertaker W. Herbert Black.

BENNETT—The funeral of Mrs. Kathryn R. (Delaney) Bennett took place this morning from her home in Hawthorne street. The cortege proceeded by three automobiles laden with flowers, wended its way to St. Margaret's church where at 10 o'clock a solemn high mass of requiem was celebrated by Rev. William J. Bennett, assisted by Rev. James F. Lynch as deacon, and Rev. Thomas J. Henegany as sub-deacon. The choir under the direction of Miss Kathleen V. Bennett sang the requiem. The church was filled with a large number of relatives and friends. The deceased was well known and much beloved. On 31st she was apparently great grief and sympathy for the bereaved family. The bearers were four brothers, John P. George, R. Edward, J. and John J. Bennett. Thomas E. Delaney of Boston and Mr. Andrew Jenkins. There were many spiritual offerings. Among those from out of town were Mr. and Mrs. Joseph, Mr. and Mrs. Edgar, Mr. and Mrs. E. Perrault, all of Pawtucket, R. I., and John J. McAnany of Boston. The burial was in the family lot in St. Patrick's cemetery where the committal prayers were read by Rev. Mr. Bennett. The funeral was under the direction of Undertakers James P. O'Donnell & Sons.

McGLANE—The funeral of Mrs. Anna Donovan McGlane took place this morning at 8 o'clock from St. Catherine's church in Cambridge, Mass. The deceased was well known and much beloved. The funeral cortege proceeded to St. Mary's church in Cambridge, Mass., where a solemn high mass of requiem was sung by Rev. Michael Gilbride. The choir sang the Gregorian chant, "The Mass," and after the elevation Mr. Raymond Kelly sang "O Meritum Passionis." As the body was being borne from the church the choir sang "De Profundis." The casket being sustained by Timothy Flanagan, Mr. Raymond Kelly, assisted at the organ. There were a profusion of beautiful floral and spiritual offerings. The bearers were Messrs. Patrick Whelan, Patrick O'Donnell, Hugh McManis, Timothy McManis, Charles Mooney and Patrick O'Donnell. Burial took place in St. Patrick's cemetery where the committal prayers were read by Rev. Mr. Gilbride. The funeral arrangements were in charge of Undertakers M. H. McManis & Sons.

FUNERAL NOTICES

BURNIER—Died Aug. 23, Joseph Burnier. Funeral will take place on Saturday morning at 8 o'clock from the funeral parlors of Undertakers M. H. McManis & Sons. Funeral high mass of requiem at 8 o'clock. Burial will be in St. Joseph's cemetery. The funeral arrangements are in charge of Undertakers M. H. McManis & Sons.

O'CONNOR—Died at Carney hospital, Aug. 22, Brendan A. O'Connor, aged 38 years, of Berlin, N. H. Funeral will take place from home of his parents, Mr. and Mrs. Henry O'Connor, 163 Madison avenue, Berlin, N. H., Saturday high funeral mass at 8 o'clock. Burial will be in St. Joseph's cemetery. Arrangements are in charge of Funeral Director Joseph Albert.

LESCARD—The funeral of Alfred Lescard will take place Saturday morning at 7 o'clock from his home, 122 First street. Solemn high funeral mass will be celebrated in St. Louis church at 8 o'clock. Friends are invited to attend. Burial will be in the family lot in St. Joseph's cemetery. Arrangements are in charge of Funeral Director Joseph Albert.

CALL ON THE MAYOR
A committee representing the Municipal Employees' union called at the mayor's office this morning and requested a conference with His Honor. Although the committee intimated that the conference was for the purpose of settling a grievance of some kind, the nature of the trouble was not made known. The date set for the conference was next Monday evening.

Schoolbells Ring for Grandmother, Mother and Child Seeking Knowledge

ON THE WAY TO SCHOOL, LITTLE HELEN LEADS MOTHER (LEFT) AND GRANDMOTHER

SAN FRANCISCO, Calif., Aug. 24.—Grandmother, mother and child—but schoolmates nevertheless! Every morning at eight, three "school-girls" leave their home, each represent-

ing another generation, and swing toward the San Jose state normal school. It is true that Mrs. Evelyn Park, the grandmother; Mrs. Gladys Crowder Zeller, the mother, and Helen Zeller,

Left Dr. Thacher Give You A Healthier Complexion

Your complexion is a sure indication of your physical condition. A healthy person never has bad skin. The pale, sallowness shows impoverished blood and a low power of resistance to disease. Impoverished blood invites attacks of fever, pneumonia and other infectious diseases.

With rich, red blood coursing through your veins the red corpuscles break down and destroy disease germs that

get into your circulation. Dr. Thacher's Liver and Blood Syrup carries the blood, keeps liver, stomach, kidneys and bowels functioning in perfect harmony, resulting in sound, robust, buoyant health. You take no risk in trying Thacher's for it is sold on a strictly "money back" guarantee at Green's drug store, Frye & Crawford Drug Co., A. W. Dows & Co. and Notman's drug store.—Adv.

the granddaughter, are far apart in the character of the work they are undertaking.

But some day, after grandmother and mother have finished their courses, and little Helen—for she's only three—learns all about music and history, they will all be working together again. And then their ambition will be realized.

Want Degrees

Mrs. Park and Mrs. Zeller taught together in Montana, where they lived. Her circumstances did not permit them to continue their education in that northwestern state.

They wanted a bachelor of arts degree, and seized the opportunity on moving here. Fortunately, the normal school here houses all grades from kindergarten to college, and so it required but a little "talking over" with Helen to convince her that "muvver" and "grammuvver" weren't going to have all the fun of going to school.

Shows getting a bit of inside information about geography—though this should not be understood to mean she is studying geography. And after a while she will begin piano and voice lessons. The mother and grandmother sing and play, and that's part of their ambition for the youngest of this strange trio of school chums.

Examples to Child

"We really are not trying to do anything unusual," is the way Mrs. Park explains their work. "We all feel we want to be better American citizens, and to do so, we must have better educations."

"It is a good example for Helen, too. You know, so many children grow weary of their studies and the classrooms. They often feel they're wasting their time with books. That isn't true, though, so we thought we'd give a practical demonstration that education is good for all ages."

The future? Grandmother, mother and daughter are too much concerned with tomorrow's lessons, right now, to worry very much about years to come. In the meantime they are studying hard all day. And when they meet on the second floor of the normal school in the afternoon, school cares are put away and the three generations march happily home.

BIG CROWD ENJOYS OUTDOOR MOVIES

Several hundred persons, young and old, viewed the outdoor moving pictures at Shedd park last night, given under the auspices of the park department. The program was an interesting one and was thoroughly enjoyed by the audience. The opening number was a comedy, entitled "Letter to a Mack Sennett production, replete with laughs. Bebe Daniels appeared in the picture, "The Speed Girl." On the South common next Monday night, Betty Compson will be seen in "Green Temptation," and the comedy will introduce Al St. John.

HER 84th BIRTHDAY

Mrs. Sarah Anna Gould, a resident of Collinsville, celebrated the 84th anniversary of her birth last Tuesday in Hudson, N. H., where she was entertained at the home of her brother, Rufus E. King. Her three children as well as many other relatives and friends assisted in making the occasion an enjoyable one for her wishing her more happy anniversaries.

THE SLEEPING PRINCESS

Pretty Pageant Staged Last

Evening by M. T. I. of North Billerica

The Father Matthew Total Abstinence Society of North Billerica staged its fourth annual pageant on the Matthew grounds last evening. The affair was under the personal direction of Miss Doris E. Conley, the well known dancer to the city of Lowell and an audience of several hundred interested spectators gathered out to enjoy "The Sleeping Princess."

Several pretty and different specialty numbers and solos were rendered during the course of the program. For weeks preparations for the grand event were

made and last evening a satisfactory presentation of the pageant added not a little to the reputation which Miss Conley has established in this line of work during the past few years. Miss Theresa Lyons was the accompanist for the evening. The cast was as follows:

Princess.....Virginia Mahoney
Prince.....Charles Mahoney
Queen.....Marion Sheridan
King.....Roland Conway
Jester.....Myra Flanagan
Baby Princess.....Gladys Lally
Party.....Mary McQuary
Ladies.....Father Lenthien
Boys.....Eddie Leland
Business.....Henrietta Mullin
Virtue.....Lara Andros
Jocundness.....Margaret O'Sullivan
Wisdom.....Mary Mooney
Party.....Alice Lantano
Happiness.....Pauline Lantano
Fell.....Myra Flanagan
The Good Fairy.....Helen Fairbrother
Old Woman.....Mary O'Neil
The Storyteller.....Lacy Fairbrother
Fairies.....John and Francis Clark

Dancers for queen:

Freda Helen Collins, Katherine Grant, Isabel Morris, Isabelle Elnor, Stephen Morris, Katherine Healey, skirt dance, Gertrude Condit, skip rap dance, Rose McArdle, Yankee Doodle, Bertie Andros.

Winged Dancers—Ester Pulsifer, Josephine McNulty, Veronica Hindaba, Irene Landon, Cecelia Lantano, Harriet Mahoney, Lacy Fairbrother, Ella Evans, Violet Dixon, Lucille Toddwick, Mary O'Connor, Mary Moran, Margaret Clancy, Wisdom dance—Theresa Sullivan, May O'Neil, Margaret Connors, Ruth Sanderson, Ellen Holt, Minnie Harold and Edna Lally, Spanish dance, Doris Clark, flower dance, Marion McMahon, Russian dance, Roma Howard, powder puff dance, Helen Collins, specialty, Dorothy Shoely, Irish jig, Isabelle Morris. The policeman and the dapper, Barrett sisters.

Scene shifters—James Morris, John Mahoney, John Moran, William Carrigan, Melvin Shalloo, David Walsh, Howard Monahan.

The committee in charge of the pageant comprised the following: Frank Mullen, chairman; Frank J. McNulty, William Taylor, Joseph Kearney, John Condon, Carl Lantano and James E. Condon, treasurer.

After the program the names of the winners in the recent field day at North Billerica were announced by Rev. John N. Cunningham.

Fight against tobacco begins at anti-alcoholic congress at Copenhagen; Lepidic professor says Lord Carnarvon would have lived if he had been a non-smoker.

ANNUAL CONVENTION OF LEATHER WORKERS

The annual convention of the United Leather Workers International Union of America was held Aug. 18 at Pease Lake, N. H. The following officers were elected for the ensuing year: Sam J. Shon, national secretary-treasurer and organizer; Thomas Muldoon and Fred Lantano—Lowell; James O'Malley and John Kenahy, Penobscot; Benjamin Rix, Warren, executive board. A committee was appointed to represent the organization at the convention of the same workers to be held at New York, Oct. 1.

JOSEPH A. MOLLOY,
Referee of the Meet

Lowell Athletes Win Over Haverhill Finest by Score of 82 1-2 to 45 1-2—Success of Meet Augurs Well For Future Inter-Sectional Games—List of Winners and Events—Handsome Silver Cup Known as the Mayor John J. Donovan Trophy Goes to Lowell Athletes

In the first inter-city track meet in the history of Lowell's playground activities, staged on the South common yesterday afternoon in the presence of several hundred men, women and children, the representatives of the local playgrounds defeated a contingent of Haverhill's finest athletes by the decisive and one-sided score of 82 1-2 to 45 1-2. The meet, conducted along regulation lines, was a success from every angle and the surprise victory of the Lowell boys and girls is a credit not only to their own ability in athletics, but to their male and female instructors, who worked untiringly in tutoring the youngsters and developing them for the struggle which they won with apparent ease.

The two to one proportion in the score is not in the least discrediting to the Haverhill boys and girls, who were forced to enter competition after a long and tedious ride over the road from their native city. It must also be taken into consideration that the Haverhillers were fighting on foreign territory, regarded as a handicap in all fields of endeavor and especially in athletics. The visiting lineup was composed of about 30 members of the down-river playgrounds, who came to Lowell in automobiles and equipped with the best possible paraphernalia for track and field events. The girls were attired in neat blue bloomers and blouses while the boys wore standard running pants and several of them had spiked shoes to boot. Lowell, on the other hand, also presented uniformed athletes, who presented a fine appearance as they took the mark for the sound of the pistol.

Many Visitors Present

The big event was attended by many playground officials from this city and from Haverhill. P. James Caswell, superintendent of Haverhill's playground work, was on hand, and expressed satisfaction with the conduct of the meet. Other Haverhill visitors included Miss Alta B. Cheney, head playground instructor, and William Shafford, in charge of the boys' work in the down-river hamlet. During the progress of affairs, the out-of-towners commented on the cooperation displayed between the local playground instructors and their young proteges and complimented the playground officials for the splendid exhibition of deportment and refinement which permeated the playfield during the afternoon. Although three policemen were on hand to keep the crowd back from the scene of the events, there was not a single instance of interference or rowdiness on the part of the contestants or the spectators. Everything went along smoothly and the first inter-city meet was brought to a close in a blaze of glory, particularly for Lowell. The success

attained augurs well for future inter-sectional games. The officials at yesterday's meet kept things moving over the program all under way. The day was ideal for participation in strenuous sport and while no time was taken of the many events, it may be assumed that some fast performances were turned in by the juvenile stars, both boys and girls. Capt. Joseph Molloy acted as referee of the contests, while the other officials were the following: Field judges, Frank Sawyer, physical instructor of the Y.M.C.A.; Horatius Leggat and Paul Kullback. The track judges were George P. Wells, secretary of the Lowell chamber of commerce, and Peter Regan. The scorers were Miss Mary Kelley for the girls and William Riley for the boys. Other enthusiastic workers included Patrick Mallone, who served as starter, and the following playground supervisors: Edwin Mackham, Vincent McCarthy, Henry McGowan, Alphonse Achin, Walter MacLehann, Assistant Supervisor of Playgrounds Arthur C. Sullivan was in general charge and appeared to be a very busy man during the three continuous hours of fun and pleasure.

Mayor Donovan Trophy

Mr. Sullivan incidentally donated a beautiful silver loving cup to the Lowell athletes for their accomplishment in winning the meet. The emblem is to be known as the "Mayor John J. Donovan Trophy" and will come into permanent possession of the city winning the inter-sectional feature on three occasions. As the result of yesterday's victorious contest, the beautiful and expensive trophy will repose in this city until a new champion looms up on the horizon. With one leg decisively won by the local champions of track and field, youthful optimism, in consequence of the first big victory, points to permanent possession by the Spindle City two years hence. Mr. Sullivan announced at the conclusion of yesterday's exercises that the prizes for the winners of the several events will probably be awarded at the South common playground pageant, to be held in the near future. These prizes consist of costly medals and other emblems befitting the occasion, and the majority of them will remain in Lowell as the result of the dining places captured by local boys and girls in the Haverhill tilt.

The Sports Program

The first event on the day's program was the 50-yard dash for the boys of the senior division. Because of the unusually large number of entrants, it was necessary to conduct this event in heats, as only four running lanes had been chalked off. The first heat was captured by McCabe of Haverhill, with McMorrow of Lowell second. Heat No. 2 found Barabee of Lowell a winner and Kelley, also of this city, a close second. Barabee, by the way, was in a class by himself as he carried away in a class by himself in the 100-yard dash. The 100-yard dash was won by McMorrow of Lowell. Barabee came in second and Kelley of Lowell third, giving the locals an auspicious advantage at the outset. Score, Lowell 9, Haverhill 6. The points were divided in a five, three, one ratio, for first, second and third, respectively.

Perhaps the biggest and best feature of the day was the running high jump for the senior class of boys. Six contestants started in this event, the bar being placed at a height slightly exceeding three feet. The next 10 minutes were spent in the struggle to get the bar over the top. The first to attempt the feat was Kelley of Lowell, who failed. The next was Barabee of Lowell, who also failed. The third was McMorrow of Lowell, who succeeded in clearing the bar. The fourth was Kelley of Lowell, who failed. The fifth was Barabee of Lowell, who failed. The sixth was McMorrow of Lowell, who succeeded. The final result was a 5-3-1 ratio, for Lowell, Haverhill and Lowell, respectively.

LABOR BANK OPENS IN PITTSBURGH TOMORROW

PITTSBURGH, Aug. 24.—The first labor banking institution to be established in western Pennsylvania, the Brotherhood Trust & Savings bank, will be opened for business tomorrow. The bank will have a capital of \$125,000 and a surplus of \$12,500, and it is planned to pay four per cent plus on savings accounts, excess profits to be added to interest as a dividend.

Banking by mail within a radius of 50 miles will be conducted on a large scale.

by Ballerla, Haverhill; second, Gardella, Haverhill; third, McCarthy, Haverhill. Score—Lowell 17, Haverhill 10.

Running high jump for junior boys—won by Nowak, Lowell; second, Davidson, Haverhill; third, Boucher and Curry, Haverhill, tied.

Girls' broad jump—won by E. O'Connell, Haverhill; second, R. Heller, Lowell; third, F. Goodfield, Lowell.

40-yard run for senior boys—won by Barabee, Lowell; second, Connors, Lowell; third, Kelley, Lowell.

Baseball throwing contest for senior girls—won by E. Kearns, Lowell; second, Rose O'Neil, Lowell; third, Florence Goodfield, Lowell.

Stapling broad jump for senior boys—won by Barabee, Lowell; second, Connors, Lowell; third, Marcoux, Haverhill.

High jump for girls—won by Grace Wilbur, Lowell; second, F. Goodfield, Lowell; third, Queenie Douglas, Lowell and P. Hawes, Haverhill, tied.

Broad jump for junior boys—won by Davidson, Haverhill; second, Davidson, Haverhill; third, L. Nowak, Lowell.

30-yard dash for junior girls—won by Rita Regan, Lowell; second, Margaret Encowsky, Haverhill; third, P. Shuckey, Lowell.

Senior relay race for boys—won by Lowell (McMorrow, Connors, Kelley and Barabee).

Senior relay race for girls—won by Lowell (C. Ryne, E. Quirk, A. Mulcahy, K. Donohue).

Junior relay race for boys—won by Haverhill (Gardella, Hills, Ballerla and Davidson).

Junior relay race for girls—won by Haverhill (R. Lessor, A. Kaspar, M. Encowsky, M. Vencis).

Less than 15 per cent of the world's commerce belongs to sailing ships.

MEDICINE OF MERIT

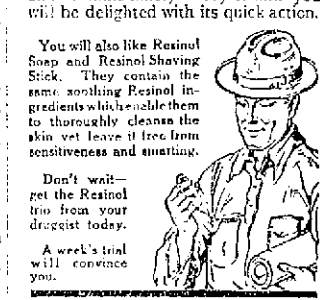

A proprietary medicine, like everything else that comes before the public, has to prove its merits. The law of the survival of the fittest applies in this field as in others. The reason for the tremendous success of Lydia E. Pinkham's Vegetable Compound is because it has been fulfilling a real human need for forty years, so that today thousands of American women owe their health and happiness to the marvelous power of this famous medicine, made from roots and herbs—nature's remedy for woman's ills.—Adv.

Resinol

relieves chafed skin-

MEN whose outdoor life causes skin irritation and tenderness, through excessive perspiration, rubbing of the clothing, etc., will find blessed comfort in the use of Resinol.

This soothing ointment—so widely used in the treatment of eczema and kindred ills—cools the skin, stops the smarting, and reduces the inflammation almost immediately. Try it and you will be delighted with its quick action.

You will also like Resinol Soap and Resinol Shaving Stick. They contain the same soothing Resinol ingredients which enable them to thoroughly cleanse the skin yet leave it free from sensitiveness and smarting.

Don't wait—get the Resinol too from your druggist today.

A week's trial will convince you.

PREMIER KATO OF JAPAN DEAD

One of the Most Able Statesmen Among the Naval Officers of the Empire

Also Noted for His Peculiar Calmness and Boldness as a Naval Strategist

TOKIO, Aug. 24. (By the Associated Press).—Haron Tomosaburo Kato, premier of Japan, died this afternoon. It was allowed to become known officially late today.

Premier Kato was born in Hiroshima prefecture in 1855. He entered the navy academy in 1873 and, after graduation, was attached to the warship Tsukuba for practical training. He was appointed sub-lieutenant in 1883. Pro-

BARON TOMOSABURO KATO

ceeded to the rank of lieutenant, he proceeded to San Francisco with a training squadron. He entered the naval staff college upon his return from America from which institution he graduated in 1885.

In 1891 he was appointed a staff officer, being subsequently despatched to London as superintendent of naval construction. He returned to Japan in 1895 as an officer on the new warship Yushino. Upon the outbreak of the Russo-Japanese war, Kato went on active service as a captain and six months later, was promoted to the rank of rear admiral.

In 1905, he participated in the famous battle of the Japan sea as chief of staff for the first squadron. Upon the restoration of peace, he was decorated.

In 1906 when the Sadoji ministry was established Admiral Kato was appointed vice minister of the navy and later promoted to vice admiral which post he held until 1909, when he was appointed commander of the Kure naval port. While vice minister of the navy, he was appointed councillor to the board of the Anglo-Japanese exhibition and also chief of the reception committee appointed in connection with the visit of the American squadron, and upon the outbreak of the World war, participated in the hostilities as commander of the battleship Settsu.

When the Okuma ministry was partially reconstructed in 1913, Admiral Kato was appointed minister of the navy in succession to Admiral Yashiro and was promoted to the rank of full admiral the same year. This portfolio he retained in the subsequently established Terada and Hara ministries. He was raised to the peerage in 1920.

Kato was generally recognized as one of the most able statesmen among the naval officers of the empire and was also known for his peculiar calmness and boldness as a naval strategist. He was the holder of many foreign decorations.

It is understood that Foreign Minister Ichida will act as premier until after the funeral. The entire cabinet then will resign and a new one will be chosen under whoever is appointed premier. Among those mentioned prominently for the premiership are Count Gombel Yamamoto, an ex-premier, and real admiral; Governor Den of Fukuoka, Governor Saito of Kure, and Baron Gohkoku Makino, a member of the house of peers, who has held cabinet portfolios and diplomatic posts.

15,000 TONS OF WELSH COAL FOR BOSTON

LONDON, Aug. 23.—A cargo of 15,000 tons of Welsh anthracite coal, left Swansea yesterday for Boston. It is stated that the price was 65 shillings approximately \$15.44 per ton, including the freight charge) as compared with 60 shillings which is said here to be the price of American anthracite on the spot.

Other American orders are expected in South Wales in preparation for what is termed in labor circles as "the forthcoming fight of the American owners against the miners' demand for better wages and recognition of the union."

Consequently, the British department of overseas trade has issued a memorandum outlining the coal situation in the United States. The statement asserts that among other things the union leaders are apparently ready to offer a stiffer attitude than has generally been anticipated and that they control funds sufficient to finance a strike of considerable duration.

A despatch from Boston yesterday said that Mayor Curley had instructed the city purchasing agent to buy two cargoes of Welsh anthracite, if obtainable at \$11.50 or less per gross ton.

INCREASE IN PAY FOR CAR SHOP WORKERS

Billerica car shop workers are enthused over rumors that an increase of three cents an hour, retroactive from Aug. 1, has been granted by the Boston & Maine railroad.

Superintendent Thomas Jennings says announcement to that effect is premature, an official word having thus far been received by him. The increase has been expected for the past few weeks and Mr. Jennings said he was only awaiting official confirmation before notice of the increase.

Pile Sufferers

Can You Answer These Questions?

Do you know why ointments do not give you quick and lasting relief?

Why cutting and operations fail?

Do you know the cause of piles is internal?

That there is a stagnation of blood in the lower bowel?

Do you know that there is a harmless internal tablet remedy discovered by Dr. Leonard and known as ILEO-ROID, now sold by Green's Drug Store and druggists generally, that is sure-cure?

ILEO-ROID banishes piles by removing the internal cause, by freeing blood circulation in the lower bowel. This simple home treatment has an almost instant effect and is known as safe and lasting relief to thousands of pile sufferers, and saves the needless pain and expense of an operation. There is no reason why you should not do the same for you.—Adv.

Bobbed Hair

Is It Beneficial or Harmful?

Although bobbed hair may add to the attractiveness of some women it does not do so for all. As a result of certain sicknesses the hair is weak and falls out and it is only in such cases that it should be cut. With many, the hair began to fall very soon after bobbing, while with others the general condition remained healthy until several months later. Many of the bobbed heads will be the thin haired and bald heads of the future. One of the first signs of weak hair is the type known as "light and fluffy"—it dries and breaks off easily in combing and becomes stringy.

Bobbed haired girls will do well to treat it in a common sense manner, or, like millions of young men, 25 and younger, they will become bald and thin haired.

Griff-Penn's Hair Grower is sold by McLeod, Frye & Crawford, Haverhill, Green, Dear, Shea, Thompson, Calsse, Lowell and City Hall Pharmacy, also Curtiss, Riley's and Perry's Barber Shops.

COUNCILOR McFADDEN WANTS TO KNOW WHO'S WHO IN THE STREET DEPARTMENT

Ward Nine Representative Seeks Information From Public Service Board Members—Engineer Stevens Submits Report on Survey of Pumping Station for Installation of Boilers

Who's who in the street department? That is a question Councilor Thomas

McFadden is endeavoring to solve. At a meeting of the public service board held late yesterday afternoon he suggested to the board that the city solicitor be asked for an opinion relative to the standing of Engineer Kearney and Superintendent of Streets Doherty as far as their duties are concerned. The councilor appeared at the meeting with a clip on his shoulder and the chairman told the members of the

of the opinion that petitions for street work should be referred to the superintendent of streets. "Who has charge of the street department?" he asked. "The public service board," replied Mr. Leary. "Who are the board's subordinates?" "The engineer and superintendent of streets," he replied. "Do I understand that the superintendent of streets is subordinate to the engineer?" "Yes, according to the action of the board," he replied. "I question the legality of that," said the councilor, and at this point he produced a copy of the city charter and read the sections pertaining to the duties of the city engineer and the superintendent of streets, and later he argued that the engineer's duties were to lay out the work, while it was up to the superintendent to see that the work was being done. In closing he suggested that the board request an opinion from the city solicitor relative to the standing of the two men.

The meeting was called to order shortly after 4 o'clock by Engineer Kearney in the absence of Chairman Murphy. Mr. Leary was elected chairman on motion of Mr. Bowyer. The following bills for a new hand rail on the Moody street bridge were approved: Burton H. Wiggins, \$185.00; Chelmsford Forge and Iron Works, \$382.04; and Frank Donnelly, \$14.00.

Report on Boilers

Engineer John A. Stevens, who was engaged by the board to make a survey of the pumping station in West Sixth street relative to the proposed installation of two new boilers, read his report to the board to the effect that the work would cost in the vicinity of \$33,000. He suggested that the new boilers be placed in another portion of the building so that they could be operated without artificial light, and this would necessitate the erection of an addition at a cost of \$10,000 or \$12,000. Mr. Leary stated that the amount mentioned by Engineer Stevens was far in excess of the amount the board contemplated spending. Mr. Stevens stated that the boilers could be installed without the services of an engineer. "I take great pride in my home town," he continued, "and rather than do a job which would not stand the acid test I would rather get out now and let you do as you see fit. The city of Lowell generally does things right and rather than submit to cheap proposals I'd prefer to be out from under when the rocks begin to fly." Mr. Leary informed Mr. Stevens that no action would be taken on the matter until the return of Chairman Murphy.

The board accepted an invitation from the Amalgamated Employees' union to attend a smoke talk on the evening of Aug. 25. Action on the portion of the Burton H. Wiggins Co. for an extension of time on its contract for the erection of the Allen street canal bridge was delayed until the next meeting. A couple of complaints from employees of the street department were received and numerous petitions for pole locations and wire attachments were read and referred. The meeting adjourned at 6 o'clock.

How To SLEEP ON A BARE FLOOR

IT is more a matter of SLEEP, than of bed or board.

Some people can sleep sitting up, standing up, even while walking.

Many people can't sleep in the softest of downy beds; and all of us suffer occasionally from nerve-racking, wearing, tiring wakefulness at night.

There is always a reason for sleeplessness. Usually it is a "sour" stomach, a liver that has "lain down" on the job, congested bowels, or biliousness.

Then, just before retiring, take Beecham's Pills. They soothe an uneasy stomach, encourage the organs of digestion and elimination to natural activity, and assure restful sleep no matter what!

At All Druggists—25c and 50c

COUNCILOR THOMAS McFADDEN

board that he was looking for a fight. He produced the copy of a petition for street improvements in his district, which he said was filed with the board some time ago, but he said he got nothing has been done. He said he saw the city engineer but received no satisfaction. He spoke with Superintendent Doherty and also with the mayor and although both officials gave orders over the telephone in his presence, still nothing has been done. "I believe the council should know who is responsible for the work that comes under the public service board," continued the councilor. "And I am

Anniversary of Fascisti March on Rome

ROME, Aug. 24.—On the occasion of the first anniversary of the march of the Fascisti on Rome, the mint has been ordered to coin a small 100 lire gold piece commemorative of the event. On one side will be engraved a portrait of King Victor Emmanuel on the other the Fasces, or bundle of rods. Gold coins have not been issued since 1912.

Identify 3 Burned to Death at Hingham

HINGHAM, Aug. 24.—The three persons burned to death after their automobile had caught fire as a result of a collision with a stalled motor truck here, early today, were identified several hours later as Earl Finlay of Wollaston, Miss Lillian Schofield of South Boston, and a Thomas Graham of South Boston. It is supposed that Finlay, the driver of the car failed to see the truck parked beside the road in time to turn out.

Bilboa, Spain, City Hall Attacked

BILBOA, Spain, Aug. 24.—The city hall was attacked yesterday by strikers who were driven off by the civil guards. One of the assailants was killed and six wounded. Other clashes occurred in various parts of the city.

Legion Hospital to Be Named for Harding

NEW YORK, Aug. 24.—The American Legion hospital for tubercular veterans at Big Tupper Lake, N. Y., is to be named the Warren Gamaliel Harding Memorial. It was announced today. A short time before his death, President Harding wrote to Dr. Samuel Lloyd, president of the institution, expressing his endorsement of the work being carried on there.

British Labor Organ to Cease Publication

LONDON, Aug. 24.—The Daily Herald, official organ of the labor party which has the support of the big British labor organizations, announces today that as a result of the report of a committee which has investigated its position, a recommendation that it cease publication on Sept. 30, will be submitted to the trades union congress next month. The newspaper attributes its present position to the fact that "millions of members of the labor party and members of the trades unions have miserably failed to respond to appeals" to support it.

AMUSEMENT NOTES

B. F. KEITH'S THEATRE

Tickets for the opening performances at the B. F. Keith theatre, went on sale at the box office yesterday morning. The "regulars" came for the first performance, and there were many others.

CENTRAL ST.

who seemed glad of an opportunity to see the varieties once more. Manager Pickels has had the theatre thoroughly cleaned and retouched for the season. New scenery has been painted. Everything has been put in the very best of shape, as is the custom of the Keith management. A full of seven features has been prepared. It will be made public tomorrow. The acts are all new here.

THE REALITY

The redemption of "Chicago Sam" a cabaret performer and one of the leading characters of the Windy City's underworld, forms the basis of the story "Environment" which is the chief attraction at the Reality today, and to-morrow. Alice Lake essays the role of "Chicago Sam" while Milton Sills has the leading masculine role. Little Richard Hendrick, curly-headed youngster, has an important role in this absorbing drama.

The other picture on the bill is "An Old Sweetheart of Mine," adapted from James Whitcomb Riley's famous poem of the same name. It is sweet, clean, wholesome picture and the poem runs throughout the film, the verses being used as subtitles. The stars appearing in this picture are Elliott Lester and Helen Jerome Eddy.

Stan Laurel, Metro's newest funster, is also on the program in "The Egg" and it is indeed a screaming comedy. At yesterday's performances, the audience seemed to enjoy every minute of it. Laurel is a really funny, but you've got to see him to appreciate his work.

gained. The second feature is Tom Mix in "Catch My Smoke," a thrilling and highly amusing series of daring stunts by this cowboy star. It's different from many of Mix's offerings, and it has many new stunts of daring and courage. You will like it every bit as well as his other successes.

TO ARRANGE FOR LLOYD GEORGE'S VISIT HERE

NEW YORK, Aug. 24.—Sir Alfred Cope, who before the Irish settlement was one of the chief British officials in London and who is sole head of the national liberation organization, arrived on the Mauretania today, to make arrangements for former Premier Lloyd George's forthcoming trip to Canada and the United States.

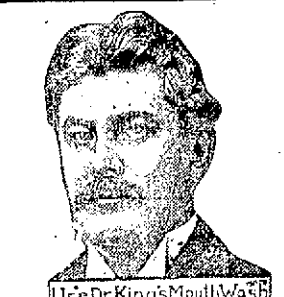

No Corns

Just say **Blue-jay** to your druggist!

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in a colorless clear liquid (one drop does it) and in thin plasters. The action is the same.

Pain Stops Instantly

—B. B. B. B. B.

"Dr. King, I Want Teeth I Can Eat With"

A man came into this office some time ago and made the above statement. He said he had two sets of teeth and could not eat with either of them. I made him a set and he came into the office later and said they were the only ones he could keep in his mouth while eating. In fact he could chew peanuts and eat apples without the least trouble.

The reason for this is my particular method of taking impressions, study of the shape and relation of the jaws and correct articulation of the teeth.

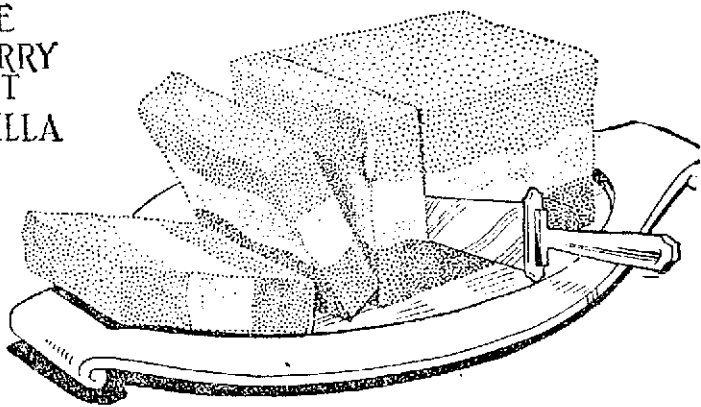

Now, I can make you a set of teeth just as good as his. If your plate drops or rocks, come in, for I make a specialty of difficult cases and will examine your mouth and give you advice free of charge.

HEALTHFUL BRIDGEWORK THAT DEFIES DETECTION
Our crowns and bridge-work are guaranteed to give entire satisfaction and may be obtained by all those who do not desire full sets of teeth.

Ice Makes Two Nations Hot In Scrap Over Greenland

GREENLAND'S CHIEF PRODUCE, AN ICEBERG—AND A YOUNG LADY "CITIZEN."

By N. E. A. Service.
GENEVA, Aug. 24.—A huge cake of ice will probably come up before the League of Nations for discussion.

It won't be brought into the council chamber as Exhibit A, because it's too large. Fact is, it's one-quarter the size of the United States! It's as big as Mexico. It's over one thousand miles long and 700 miles broad. Being so frigid, it has caused a coolness between Denmark and Norway. Its name is Greenland.

There is not much danger of the two countries going to war over Greenland, but for some time now they and their press and their parliament have been making faces at each other. Greenland was discovered as long ago as the 10th century by Eric the Red, a Norseman who planted a colony there. Then Greenland was cut by local Greenland councils consisting

off from all intercourse with Europe by frozen seas. When white men once more came there in 1582 no trace was found of the Europeans. In modern times such government as has been known there has been carried on by the Royal Greenland Trade Board at Copenhagen, assisted by a Norseman who planted a colony there. Then Greenland was cut by local Greenland councils consisting

of the natives. The Danes claimed the whole of the immense territory. The Norwegians disputed this. Denmark sharply asserted her position last December by passing a bill annexing Greenland. Norway has never disputed Danish rights in the west and southwest coasts, but claims northeast Greenland where its subjects conduct a certain amount of trade. The whole east country only has about 30,000 Eskimo inhabitants and there are about 50 trading settlements, consisting of a few houses each from which there is exported whale and seal oil, furs, eiderdown, fish and a little copper.

But Greenland will always be interesting in the past of the world because its principal product is icebergs, the kind that caused the Titanic disaster.

This Little World

CHICAGO

By GEORGE BRITT

N.E.A. Service Writer

CHICAGO, Aug. 24.—It will be correct to tip the taxi driver when you visit Chicago, but it's unsafe to try to impress him with highbrow stuff.

Six drivers for one single cab company, it just comes to light, are doctors of philosophy. About fifty others are bachelors of something or other, of colleges and universities.

The city pays more to ride in a taxicab than to be taken by the hand of scholarship and led along the busy road to learning. The cabdriver game of "tutoring,"

by means of the old favorite "transfer pictures," has struck society's exclusive North Shore. Children of the wealthy thrill at the same savage decorative system the children of the alleys enjoy. Pictures of kewpies and llans and red butterflies are transferred, from the original watersaturated sticker, not to the intended sheet of paper, but to a child's arm or neck. Afternoon tea is but a step removed, perhaps, it is the next step, from the candy and fruit habit which is developing in Loop office buildings. The promoters are a diligent band of peddlers. Each afternoon the peddler appears, and is not met with reference to building sales against such salesmanship, but with a shower of nickels. The city police office reports nearly 200 "taster and pack peddlers," mostly selling candy in Loop buildings.

For family pensions even the Smiths would be hard put to beat the record of the firestones, who just assembled 200 of their known 550 members for a convention here. Cousing came from a dozen states and Canada. The game was adopted only about a century ago by an ancestor in Lithuania, when a royal edict required modernization of customs.

Whisperings about fake "old masters" in Chicago art galleries and mansions serve to bring forward the story of a genuine artist, who lived here in the traditional penny. The woman reached west one day that \$200 had been sent her by cable from Switzerland, she hurried through the studios in her building in search of some other artist who had a bank account and might identify her. There was none. The janitor at length introduced her at his bank.

WILLIAM AHAM

265 GERRARD ST. TEL. 502-17

SAYS WALTER WARD WAS AN EXPERT SHOT

NEW YORK, Aug. 24.—Walter S. Ward, slayer of Clarence M. Peters, who is waiting trial for murder in the Westchester county jail, was characterized by a former employe testifying before the grand jury which investigated the killing, as "a cold-blooded and close-mouthed man with a wonderfully alert mind, and an expert pistol shot."

This was revealed yesterday when more of the grand jury record was made public by Ward's attorneys. The testimony quoted was given by Palmer Tubbs, chief assistant under Ward in the purchasing department of the Ward Baking Co., who said he was discharged in February without apparent cause.

Tubbs described frequent visits to Ward's office of two men, one called "Boss," with whom he said Ward appeared to be on friendly terms. According to a statement by Ward concerning the shooting, two men known to him as "Jack" and "Boss" were involved with Peters in a blackmail plot against him.

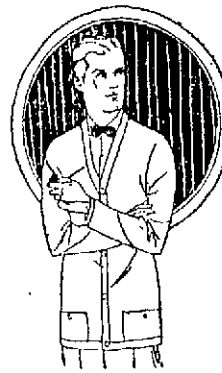

The witness further told the grand jury that Ward was the best shot among the higher officials of the New

Rochelle police force, of which he was a commissioner.

Another witness whose testimony was made public was Earl N. Hardy of Haverhill, Mass., an uncle of the slain man. He said Peters never appeared to have much money, even at

ter the time the blackmail was said by Ward to have been levied.

"I don't think he had a mind capable of doing the things reported," he said. "For instance, the blackmail plot; he didn't have head enough to do that."

Sister Mary's KITCHEN

By SISTER MARY
RELISHES AND SAUCES
Piquant sauces and delectable relishes will glorify the cheapest cut of meat and lift it out of the realm of everyday.

While chow-chows and picnillies seem to have a little bit of everything that grows in the garden in them there is quite a knack in combining the vegetables and seasoning proportions. Many of these relishes can be made more economically at the end of the season when the danger of frost hastens harvesting. Or you may just happen to have more than you know what to do with when the family has

suddenly gone out for dinner and the makings for the salad or stew ought to be used up some way.

Tomatoes, green or ripe, form the basis for most sauces.

Mixed Relish
Six green tomatoes, 4 large sour apples, 4 small onions, 3 green peppers, 12 cups seeded raisins, 1 cup vinegar, 1 cup water, 2½ cups brown sugar, 1 tablespoon salt, 2 cups whole milk.

Wash tomatoes and chop fine. Pare and core apples and chop fine. Chop onions and chop fine. 100 peppers in hot water, and of this outer skin and remove seeds and white ribs and chop fine. Chop raisins. Put chopped vegetables and raisins in preserving kettle. Add remaining ingredients with the spice tied in a small muslin bag. Stir well and boil one hour. Pour into sterilized cans and seal.

Uncooked Pickle
One-half peck ripe tomatoes, 2 ripe peppers, 4 green onions, 2 cups white mustard seed, 1 tablespoon black pepper, ½ cup salt, 6 cups vinegar.

Wash vegetables. Seed tomatoes and strip skins. Seed peppers and strip off outer skin, remove seeds and ribs. Chop onion, peel onion and mince. Mix mustard, salt, pepper and mustard seed with vinegar and let stand until sugar and salt are dissolved. Chop and mix vegetables, pour over vinegar mixture. Store in an earthen jar in a dry, cool place. Keep tightly covered with a heavy plate.

Left-over Relish
Two quarts green tomatoes, 1 quart green onions, 4 heads celery, 4 large green cucumbers, 2 cups vinegar, 2 green peppers, 2 red peppers, 1 small head cabbage, ½ cup salt, 6 cups vinegar, 12 pounds brown sugar, 1 tablespoon mustard, 1 teaspoon pepper.

Wash and chop green tomatoes. Seed and chop green onions. Wash and chop celery, peel and chop cucumbers. Peel and mince onion. Prepare peppers and chop. Chop cabbage. Mix chopped vegetables with salt and let stand three or four hours. Drain over night. Add remaining ingredients to the mixture and bring to the boiling point. Boil 20 minutes. Pour into sterilized jars and seal.

Dressed Sauce
Twelve red peppers, 12 green peppers, 12 yellow peppers, 1 to 2 heads celery, ½ cup salt, 5 cups vinegar, 2 cups brown sugar, 1 tablespoon celery seed, 1 tablespoon mustard seed. Remove seeds and stem ends of peppers, chop very fine. Cover with boiling water and let stand 10 minutes. Drain and cover with cold water. Add chopped onions and bring to the boil.

ing point, boil again. Put all ingredients in preserving kettle, and bring to the boiling point. Boil 15 minutes and pour into sterilized jars and seal.

Child Sauce
Twelve ripe tomatoes, 4 onions, 2 green peppers, 2 stalks celery, 1 cup sugar, 2 cups vinegar, 3 tablespoons salt, 2 teaspoons cinnamon, 1 teaspoon allspice, 1 teaspoon cloves, 1 teaspoon black pepper, 1 teaspoon ginger, 1 teaspoon mustard.

Scald and peel the pieces. Cut in small pieces and put in preserving kettle. Prepare peppers and chop. Chop onions and celery. Add to tomatoes and boil 15 minutes. Add remaining ingredients and boil until thick, about two hours. (Copyright, 1923, by The Lowell Sun)

HEALTH EXAMINATION

The doctor will soon come when the health of the community will be guarded, as carefully and as thoroughly as our social and moral life.

To the foregoing must be added the health of the individual, and the health of the individual is the health of the community.

Health is the foundation of all life, and the health of the individual is the health of the community.

Health is the foundation of all life, and the health of the individual is the health of the community.

Health is the foundation of all life, and the health of the individual is the health of the community.

Health is the foundation of all life, and the health of the individual is the health of the community.

Health is the foundation of all life, and the health of the individual is the health of the community.

Health is the foundation of all life, and the health of the individual is the health of the community.

Health is the foundation of all life, and the health of the individual is the health of the community.

Health is the foundation of all life, and the health of the individual is the health of the community.

Health is the foundation of all life, and the health of the individual is the health of the community.

Health is the foundation of all life, and the health of the individual is the health of the community.

Gold Bullion Recovered From Sea

LONDON, Aug. 24. (By the Associated Press).—All except a few bars of the 30,000,000 dollars worth of gold bullion which dropped to the ocean bed when a German submarine sank the *Laurentic* off Donegal, Ireland, has been recovered by divers who since 1918, have been carrying on their labors ninety feet below the surface of the sea. The 30 bars remaining in the wreck, it is expected, will be brought up within a fortnight. In addition to the gold, which was consigned to American bankers, the *Laurentic* was laden with almost five million dollars in silver specie, mostly in two shilling pieces, all of which has been salvaged.

Under the old plan, twelve-hour shifts, steady workers, were not easy to find at times. Today, with the steel mills running on three working shifts of eight hours each, mill managers and employment agencies are being hard put to find places in the first production plants, so eager are workmen to fill berths coming under the new working time schedules.

It is a fact, now admitted by the steel barons high and low, that there has been no interference with production because of the so-called short-day schedules. Common laborers are receiving fifty cents per hour in the mills under the new eight-hour plan. And the number of applications for jobs exceeds the number of jobs open.

Bernhard Schulz is convicted in a celebrated murder trial in Berlin. The only clue was a single hair brought in the fingers of the victim, Hans Friedmann, stock broker.

Scientists in the courtroom, provoked by chemistry, that the hair came from Schulz's head. He broke down and confessed.

There is no mystery crime, except fiction and the movies. Every criminal leaves a clue, betraying himself as inevitably as the lightning can include his work after striking the earth. But somehow with several clues, the police of Lawrence and M. Thum do not seem to make any progress. Finding the murderer of Pottem-Bowen.

Germany Stands By Cuno Offer

BERLIN, Aug. 24.—(By the Associated Press) The present German government stands by the offer made by the recent Cuno government for the meeting of Germany's reparation obligations, Chancellor Stresemann told the German industrial commerce club in addressing it today. "For the liberation of German soil, for the maintenance of our sovereignty and for the consolidation of our situation," the chancellor declared, "it would not be so great a sacrifice to offer part of the German economic system as a productive pledge for carrying out Germany's reparation obligations."

LOWELL BOY IN 56-MILE HIKE

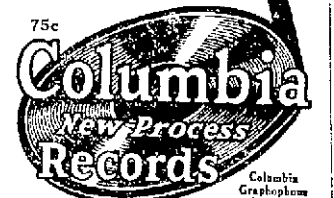

William McLean of this city was one of three boys who successfully completed a 56-mile hike from Camp Columbus to Washington, D. C., recently. Eleven boys with two counselors from the camp started on the hike but eight were eliminated because they accepted "hops" along the route. The three who completed the trip were footsore and weary but a night's sleep

Bibi—I wrote an article on cow's milk for a magazine.
Nibi—Did they print it?
Bibi—No, all they condensed it.
In a soft bed put them back into shape again.
The trip was started at 2 o'clock, one week ago Thursday afternoon. At night the boys slept in a farmhouse and started out early the next morning. Heavy rain made the going muddy and all but four dropped out. Later in the day one more dropped out and left only three to complete the trip. They stuck at it and arrived in Washington late Saturday night, after covering 56 miles of hard going. The Lowell boy was the oldest in the group, being 15 years of age.

MISS LI HERE TO STUDY
SAN FRANCISCO, August 24.—Miss Grace Li, 20, daughter of Li Yuen-Hung, the resigned president of China, arrived here yesterday on the way to Wellesley college, where she will complete her education.

HOW TO KEEP FIT AT 72

Sprightly Old Man Reveals the Secret

"I am 72 years old, and more vigorous and active than most men of my age. I know that my excellent condition is due to the fact that I take two or three doses of Wincarnis every day, because I never felt as well before I began taking it. I used to tire very quickly and suffer from wakefulness and had to bundle myself up whenever it was damp or drafty. But since I began taking Wincarnis I have had the energy and endurance of a middle-aged man, sleep soundly and withstand the severest of weather. I have noticed that Wincarnis keeps my appetite keen and that it strengthens my nerves and heart. If my fingers tremble and my heart flutters or I feel symptoms of depression or weakness, a dose of Wincarnis gives me relief within a few minutes."
(Mr. Eugene E. Collins, 715 Arnold St., New Bedford, Mass.)

COKE OPERATORS TO AID
CONNELLSVILLE, Pa., Aug. 24.—(By the Associated Press) Operators in the Connelville coke region today joined with bituminous coal operators of the country in preparing for an emergency demand for bituminous coke for domestic purposes in the event of a stoppage of anthracite production on September 1. An output of 150,000 tons of coke weekly could be made available to ordinary consumers of anthracite coal, operators declared.
The Connelville region last winter was called upon to meet a similar emergency while anthracite operators were replenishing their depleted stocks after the settlement of the 1922 coal strike.

Two Held for Murder of John B. Girouard

MARLBORO, Aug. 24.—Hugo Baldi of Somerville, and Bernardo Martino of Newton, charged with the murder of John B. Girouard, president of the People's Ice Co., the night of Aug. 13, were arraigned before Judge Edgar Weeks in the Marlboro district court today. The case was continued for a hearing Aug. 31, by agreement of counsel for the defense and assistant district attorney Warren L. Bishop. Girouard was shot to death when he interrupted an attack by supposed "hi-jackers" upon three men among them Baldi, who, according to information given the police were delivering bootleg whiskey at the rear of an icehouse of Girouard's company.

The Health Doctor says:

The greatest movement in America today is the crusade against preventable disease.

Theatre seats collect dangerous dirt

Why Crowds are Dangerous

ON the street—in school—in public places—your children come face-to-face with disease. The grime they collect on face and hands is mute evidence of countless dangerous contacts.

That grime is not "clean dirt"—but a product of city congestion—containing millions of invisible enemies to health.

What Mothers Must Do

You cannot keep children from this ever-present disease-dirt. But you mothers, the "Health Doctors," can and should do everything possible to prevent its deadly effects. All the health authorities in America ask your co-operation.

Make sure that your children are really clean when they wash themselves. Ordinary cleanliness is not enough. They need the rich purifying lather of Lifebuoy with its unique

health ingredient to go down deep into the dirt-clogged pores and combat the dangers ever-present in dirt. The pungent, healthful odor of Lifebuoy proves the presence of this extra element.

Because of its rich, red palm-fruit oil and oil of coconut, Lifebuoy is most grateful to youthful, sensitive skins. And many blemishes yield to Lifebuoy's sanative, stimulating action. Men delight in Lifebuoy lather.

Why Lifebuoy Leads

But the real reason why Lifebuoy is now probably the widest selling toilet soap in the world is that millions of mothers have proved it to be the health soap. Rely on Lifebuoy. Put a cake of Lifebuoy at every place in the house where there is running water. Lifebuoy protects health. Lever Bros Co., Cambridge, Mass.

More than Soap—Lifebuoy—a Health Habit

N. Y. GIANTS' LEAD IN NATIONAL LEAGUE REDUCED TO THREE GAMES

WORLD'S CHAMPIONS DIVIDE DOUBLE HEADER WITH CARDS AS REDS TRIM BROOKLYN TEAM

From a Lead of Nine Games a Fortnight Ago the Giants' Are Now Down to a Lead of But Three Games—Detroit Trims New York Yankees in Hard Fought Battle

NEW YORK, Aug. 24.—The Giants broke even with the Cardinals at the Polo grounds yesterday, winning the first game, 5 to 1, and losing the second, 7 to 4. Nevertheless, they lost ground in their race to stay at the top of the National League, which is now in Brooklyn and the Pirates in Boston. From a lead of nine games a fortnight ago, the world's champions are now down to a lead of only three.

The Pirates played the Giants just a hard fought battle, 7 to 4. Showkey, on the mound, allowed the batters only seven hits, but they only got the New Yorks down 4 to 1. The Pirates, in a slugging game in Brooklyn, defeated the Giants, 7 to 4, in the fifth inning. The Giants made 12 of the 15 hits of the game, but poor fielding undermined their work at the bat.

HOW THEY STAND

NATIONAL LEAGUE STANDING	W	L	P	CG
New York	24	10	1	10

ABBOT WORSTEDS TRIM JACK'S FRIGHTFULLY BUSY LOWELL C. M. A. C.

A home run with the bases full by Shannahan of the Abbot Worsteds was the deciding factor in the 6 to 4 victory of the team over the Lowell C. M. A. C. in a Massachusetts Twilight League game on Abbot Field last night. "Lefty" Locke was in the box for Lowell when the circuit ball was made. It was a hard fought battle, with the Abbot Worsteds winning the game without allowing a single error.

HELEN WILLS, LEFT, AND BOBBY JONES, YOUTHWIDE CHAMPIONS OF TENNIS AND GOLF WORLDS.

By ROY GROVE
NEW YORK, Aug. 24.—Two school kids, Helen Wills, the 15-year-old newly crowned queen of the tennis world, and Bobby Jones, the 21-year-old king of all golf, held the most popular and most sought for titles in the United States in the world.

There is much to be learned in the efforts of these two and more to be learned in their dogged attempts to gain these coveted crowns.

Their progressions to their respective thrones have almost been automatic, a result, perhaps, of their early start in the sport.

There is much to be learned in the efforts of these two and more to be learned in their dogged attempts to gain these coveted crowns.

There is much to be learned in the efforts of these two and more to be learned in their dogged attempts to gain these coveted crowns.

WASHINGTON CLUB DAY AT LONG MEADOW

It was Washington Club day yesterday on the Long Meadow golf course and a large delegation took part in a special tournament.

First division	Gross Hcp.	Net
W. C. Purcell	88	82
James Mulvaney	117	30
Charles McKenna	115	3

Second division	Gross Hcp.	Net
Frederick F. Moloy	105	18
John J. Hogan	110	30

COMES BACK

Frank Taborski, of Detroit, retired undefeated pocket billiard champion, is coming back to the game to meet Ralph Greenleaf, present champ, in the Interstate Pocket Billiard league competition in which 14 cities will be represented.

Bill Evans says

Babe Ruth, "King of Swat," is back on his throne. After months of exile as baseball's premier swatter of home runs, the King is himself again. Once more he is showing the way to the other sluggers in the National and American leagues.

Getting away to a rather late start this spring, Ruth found himself in the position of being a late starter in the matter of home runs.

His greatest rival was Cy Williams of the Philadelphia Athletics. Added to the fact that he had to beat the best England had and all the other countries, which he did.

He has set to meet Suzanne Lenglen, the French flash, the only tennis player whom she has never met. And that probably will be at Wimbledon next year.

There is much to be learned in the efforts of these two and more to be learned in their dogged attempts to gain these coveted crowns.

AMERICANS COME FROM BEHIND AND FIGHT WAY INTO 3 TO 3 TIE WITH BELLEVUES

Darkness Terminates Hard Fought Battle With Honors Even in City Twilight League Game—Trask and Mulno in Another Pitchers' Battle—Three Flashy Double Plays

With apparent defeat and virtual loss of the pennant staring them in the face, the Americans fighting with their backs to the wall, launched a rally in the fourth inning of last night's City Twilight League game on the common and fought their way into a 3 to 3 tie with the Bellevues. Another full inning was played, but the deadlock remained unbroken and as twilight closed the game was called a draw.

Bitter rivalry exists between these two teams. They have come together three times. Their first meeting which took place on the common, the Americans went to one to one tie in eight innings. The play-off of this deadlock resulted in a two to one victory for the Americans.

The three times that the teams have attempted to settle their differences Trask and Mulno have been the opponents chosen. In all Trask has pitched better, but "breaks" of the game have always gone against him.

ABOUT TIME TO TRY A NEW REMEDY

"HERE'S LOOKING AT YOU"

Jack Daw's Adventures. Chapter 10

By the time Jack started down the rigging he felt a lot safer than he had when he started up, and he reached the ship deck in short order. "You'll make a good seaman," said the captain. "And now let's see how well you can scrub deck." And with that, he handed Jack a pail and brush.

The little adventurer had scrubbed the front porch of his home many times so the deck scrubbing job was not hard for him to get used to. As he pushed the great brush back and forth the captain started away. "When you've finished the front end of the deck you can rest," he shouted back.

Jack worked hard for a long time. Then, when he was just ready to take a rest, a great wave of water came splashing over the side of the boat. It drenched Jack. The adventurer knew that it was a calm day and he wondered what caused that wave. Then he spied another ship. (Continued.)

"Gold Rush" Film Carries Flavor of California

MAURICE FLYNN

JACQUELINE LOGAN

BY JACK JENSEMEYER
HOLLYWOOD, Aug. 21. (The) "Gold Rush" had a way of being his melodrama in the pencil world so that it came out with fine quality. Filmwrights haven't acquired that trick as yet, their product is rather flat. But taking this into consideration, there is in the "Gold Rush" production of "Salome Jane" the most complete and the manner of "Salome Jane" is a diverting screen sketch of a better day in the old California mother lode.

I must warn you, if you're going to take any word for the picture, that I am frankly prejudiced in its favor because it was made in a land which is my chosen stamping ground. The charm of that land graces the film. Its red rutted roads, sugar pines, blue canyon cliffs, placid meadows, tangled vine saloons, weather-beaten mountain homes—Calaveras county in the foothills of the Sierra, portrayed deep with the heavy hulk of the Apennines.

"Salome Jane" adapted from Bret Harte's tale of a vigilante (known as "The Vigilante" and directed by George Melford, pans out heavy melodramatic color of that kind. Members of the cast, stirred by the spell and shell of a varied day, went at their performance with zest. You will note it in the arena of Louise Dresser, the crushed mountain woman, and her renegade husband, played by Raymond Gray.

At first they thought he wasn't there but they soon saw the ice and a hole melted in it you could stick your finger into, and he was there.

And there was Peterkin Pea-Wee, melted down in, and almost frozen.

"I want to sleep on the North Pole," he yelled up at them. "And when I wake up I was away down here. Bret Melford threw me a rope and pulled me out."

So Nick let down a piece of string and Peterkin caught hold and was hauled up safely and taken home to his worried wife.

"I'll hunt the South Pole next time!" he declared with charming tooth.

(Copyright, 1923, by The Lowell Sun)

Color characterization as the feudist—their tales knit together with a stage backdrop and vigilante law.

Year after year, on hunting trip and fishing, I have heard the paragon of such humor from the wrinkled pioneers of Calaveras, from Packer Flat to Angels camp. Tales of shootings, lynchings, stage robberies, poker table drama, dance hall romances and shotgun weddings, riches won from a joke, riches lost at a stroke, all the wild untrollable changes the foothill folk named out with the gold and planted with their feet and vine. Tales falling casually from withered old lips of women who were once "Salomeys" and of old grandpas who were once handsome young "Strangers" of the diggings.

These were the tales, when they were young, that Harte garnered in his literary wanderings along the Mother Lode. The savor of them and the roles of their day form the backdrop for the pictured version of "Salome Jane."

My only excuse for this verbal rambling is the hope that I may have imagined for you a mental picture which may add to your enjoyment of the picture. If I haven't, charge the failure to the sentimental leanings of your correspondent toward the land of Bret Harte's trails and pictures which compare their romance.

Jacqueline Logan will hold your heart interest. Maurice Flynn, slow, quiet, slouchy, with none of the accents of the usual western hero, fills his role of "The Stranger" with nonchalant grace. The rest of the cast play up to them with nice adaptation.

PROUD STEED

General Morris up a bit for the cameraman. President Coolidge has just selected him from among a dozen horses in the White House stables as his personal mount.

Commonwealth of Massachusetts—Middletown, ss. Probate Court.

To the heirs-at-law, next of kin and all other persons interested in the estate of Hannah E. Peabody, late of Lowell, ss. and County of Essex, deceased.

Whereas, a certain instrument purporting to be the last will and testament of said deceased has been presented to said Court for Probate, by Forest H. Peabody and Lovella Peabody, who play that letters testamentary may be issued to them, the executors therein named, without giving a surety on their official bond.

You are hereby cited to appear at said Court, to be held at Cambridge, in said County of Middlesex, on the fourth day of September, A. D. 1923, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioners are hereby directed to give public notice thereof, by publishing this citation once in each week, for three successive weeks, in "The Lowell Sun," a newspaper published in Lowell, ss. and County of Middlesex, on or before the third day of August, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

Witness, George F. Lawton, Esquire, First Judge of said Court, his twenty-third day of August, in the year one thousand nine hundred and twenty-three. F. M. ESTY, Register.

GOV. COX GOING TO NEW PEOPLE TIRED OF WAR
YORK COAL CONFERENCE

BOSTON, Aug. 24.—Gov. Cox announced today that he would attend in person the conference of governors and their representatives to consider the coal situation in New York next Tuesday.

He said that the New England governors took no action upon the memorandum presented to them at their conference here yesterday by the Massachusetts legislative coal investigation committee, recommending a boycott of anthracite because they did not have sufficient time to study it. All the governors, he added, had taken copies of the report home with them and would give it earnest consideration.

MRS. COOLIDGE
FAILS TO WIN PRIZE

NEW YORK, Aug. 24.—Mrs. Calvin Coolidge, wife of the president, was not among the winners announced last night in the drawing contest she entered a few months ago, while summering in New England, but she at least has the satisfaction of knowing that a New Englander won the capital prize and incidentally she won honorable mention.

The winner of the first prize, \$500, was Mrs. Elizabeth C. Weston of Jamestown, N. H., whose sweater and scarf set was adjudged to be the most beautiful and workmanlike of all the thousands of articles submitted.

Mrs. Coolidge's labor, however, is far from lost, although she did not win a prize. She has announced that the baby carriage robe she knitted, with all its trimmings, will be used to tuck around her first grandchild when he or she is born.

LADDIE BOY
IN NEW HOME

NEWTONVILLE, Aug. 24.—After a trip from Washington which included a call at Plymouth, Laddie Boy the White dog who formerly was President Harding's pet, was installed last night in his new home with Mrs. Harry L. Barker here. Mrs. Barker, who presented Laddie Boy to Mr. Barker in recognition of the latter's work on the White House second service corps, the dog was brought from Washington to Russell Barker, son of the secret service man, Young Barker, who is a member of the canine corps. Laddie Boy, who has been in the White House since 1921, is a small army of photographer's leading their dogs here, where his picture was taken with all the newsmen of the town.

FATHER AND SON TENNIS
BROOKLINE, Aug. 24.—In the national father and son tennis championship at Chestnut Hill today Joseph W. Wear and Peter Wear of Philadelphia, reached the final round by defeating Dr. L. Emerson and Gerald Emerson of Montclair, N. J., 6-4, 7-5.

STEAMER ASHORE
A SECOND TIME

HAIFA, N. S., Aug. 24.—The steamship Sable L, which grounded near Maline, off the coast of New Brunswick, on Aug. 12, and which was refloated yesterday, went ashore again last night during a gale and was refloated this morning. Today she was proceeding under her own steam to St. John's.

The steamer was making her third month trip, carried 12 passengers, and went ashore on the 12th day of the month.

PLAN TO SAFEGUARD
ITALIAN IMMIGRANTS

NEW YORK, August 24.—To safeguard Italian immigrants arriving in this country from unscrupulous private banks, Premier Mussolini and the Italian treasury are planning to designate American banks to receive Italian postal savings bank slips for deposit. State Senator J. A. Griffin of New York, said on his arrival from Italy, on the Mountaunta, "Under this plan, Italians may take their postal savings deposit slips to these institutions, and receive credit for them at the current rate of exchange."

NEW GASOLINE PRICE STREET CARMEN'S UNION
TO STAGE BIG SHOW

Uniform Charge of 15¢
Cents a Gallon in Sioux Falls, North Dakota

SIoux FALLS, S. D., Aug. 24.—(By the Associated Press.) A uniform price of 15¢ cents a gallon for gasoline was being charged here today and similar rates are expected to follow in other sections of the state despite assertions of independent dealers that it would be their ruin.

The new price followed announcement last night by the independent dealers here that they would meet the figures set by the Standard Oil Co. of Indiana.

Governor McMaster recently started the gasoline war by charging that the Standard Oil Co. of Indiana was profiteering, by adding 26¢ cents a gallon, and announced that the state would sell it for 15¢ cents.

The Sioux Falls independent dealers, in making their announcement, asserted that while it may be a personal victory for the governor, it is a sad tragedy for the helpless dealer who must be sacrificed to the governor's ambition.

GIRLS' ASSAILANTS
HELD IN \$10,000 EACH

NORTHAMPTON, August 24.—John J. Flynn, Joseph J. Oliver and Samuel Galowitz, all of Worcester, were held yesterday in district court charged with a criminal assault on two Holyoke young women. They were found guilty and bound over to the grand jury in the sum of \$10,000 each. Galowitz alone secured bail.

It is alleged that the young men attended a dance in Belchertown and, while riding back to Holyoke in an automobile, made the assault. In the struggle one of the young women broke her arm.

Brookhart Hits Back
at Meredith

Continued

Brookhart's first public reference to Meredith since the latter announced his intention to file a suit for alleged libel against the senator, Mr. Meredith, too, would be under oath, said the senator, and "we will find out from his own mouth whether he made a light against the dedication of the farmers or whether he put mud in the Wall Street game."

Senator Brookhart attacked Mr. Meredith's character and statement in war finance corporation loans to Iowa farmers, and told his audience that "the time has come when the farmers should kick the Merediths out over the dashboard and fling their own business for themselves."

The senator declared he would like to offer Mr. Meredith the profits from his 240-acre farm in settlement of the proposed 30 cents libel damage suit. If Mr. Meredith should accept under the condition that he pay the operating costs, interest and taxes, said Mr. Brookhart, "I would be several hundred dollars ahead."

"I am glad that he has been so considered in the amount of damages sought," said Senator Brookhart, "for he beats me that is about all I can save out of my salary after paying this year's deficit on my farm."

"The most amazing part of Mr. Meredith's statement is the war finance corporation loans. He says the farmers of Iowa borrowed twenty-four million dollars two years ago from the war finance corporation. The farmers were to borrow one cent from this corporation. The war finance corporation is a Wall Street controlled institution that lends only to banks and selected co-operatives. These Iowa loans were all to banks."

VISCOUNT BIRKENHEAD
REACHES NEW YORK

NEW YORK, Aug. 24.—Viscount Birkenhead, former lord high chancellor of England, who will deliver an address tonight on some problems left by the war at the Institute of Politics, Williamsstown, Mass., arrived on the Massachusetts today. The viscount's address has attracted interest as he is known to have little confidence in the League of Nations as long as the United States is not a member.

The viscount, who is accompanied by his daughter, Lady Eleanor Smith, and by Commander Locker-Lampson, M. L. C., when the Russian "Black" offered a large reward, "dead or alive" after the viscount's defection in the World War, also addressed the American Bar Association's convention at Minneapolis next week.

The party was extended the courtesy of the government and taken ashore in a revenue cutter while the ship was in quarantine.

FAREWELL PRESENT OF WINE

TOKIO, Aug. 24.—(By the Associated Press.) Farelal announcement of the death of Prince Akihito is expected to be made. The emperor has sent the prince the traditional farewell present of wine.

JAPANESE OFFICERS RETURNED

TOKIO, Aug. 24.—Correspondence of the Associated Press says that some of the Japanese officers and men who were captured by the military officers were placed on the ship, this month, in accordance with the policy of military reduction.
